SHAKE

"It goes without saying that if you don't have the right tools for the job you won't get a very good result. I'm incredibly particular about my bar tools. I tend to gravitate to specific things, like having a properly weighted shaking tin set. Shaking is a violent activity. Having an internal weight is important. It gives your shaking more heft. Barfly® came out with the Superfly® shaker. The internal weight is really helpful. It doesn't pop off, and it's really elegant looking. Tools are also about the way your job looks because 90% of the job is hospitality. When you're creating a cocktail, you're putting on a little bit of a show so everything should be elegant and beautiful. Barfly has done a very good job of curating tools that have that elegant look."

"I'm a guy who geeks out on gear. Barfly® has the types of jiggers I like. They have the types of spoons I like. It makes a big difference in the experience of actually making a cocktail. Cheaper sets just don't give you the same feel. I'd rather have the right piece of equipment for the job because it gives me the confidence to focus on the experience for my guests and students."

STRAIN

"The right tools are everything. We went through a plethora of different strainers to find those that deliver a precise, clean pour while standing up to the demands of even the busiest shifts. We just landed on Barfly® and we've now incorporated the products into every element of our business. We're a Barfly house. We've been using all types of barware throughout our bartending careers, and when we decided to start selling items, we hand-picked our favorite Barfly products to offer to our customers. We only have Barfly shakers, jiggers, spoons and strainers. They're the best. We don't sell anything we don't stand behind."
