

# Built for transport.

Heavy-Duty mobile refrigerators for on-site holding, transport, and serving of chilled food and beverages.

- Durable stainless steel construction with foamed-in-place insulation provides superior rigidity and improved energy efficiency
- Vibration/shock protected refrigeration cassette with automatic defrost
- Dual purpose polymer armour panels provide protection from impact and ergonomic grab points

# Hold, transport and serve chilled food more efficiently.

Metro® C5™ R-Series Mobile Refrigerators are engineered to withstand the shock and vibration associated with mobile applications. Foamed-in-place polyurethane insulation provides superior rigidity and improved energy efficiency versus common fiberglass construction.

## Well Protected.

Protection of the refrigeration system in mobile applications is essential. C5 R-Series features an all-in-one, easily removable refrigeration cassette mounted on vibration / shock isolators for complete refrigeration system protection.

## Easy to move.

Stylish, durable armour panels with built-in vertical handles provide protection from impact and ergonomic grab points for easy handling.

## Versatile.

Perfect for banquet / catering applications that require transport of chilled food to serving locations. Also great for instant back up capacity in cafeterias and buffet areas.

Rear Push Handle Option for added control

## Slide and Shelf Options

**Adjustable Bottom Load Slides**  
for 12" x 20", 18" x 26",  
and GN pans

**Adjustable Lip Load Slides**  
for 12" x 20", 18" x 26",  
and GN pans

**Fixed Lip Load Slides**  
for 12" x 20" and GN pans

**Shelf Option**  
For covered plated meals or  
odd size pans and dishes
