Super Erecta Pro® Starter and Add-on

Corrosion resistant shelving constructed of removable polymer open grid shelf mats over a wire shelf frame. Shelf has a rigid four-sided frame with center truss(es). Robust corner provides complete 360° capture of the split sleeves and post for added stability. Shelf frames and posts have Metroseal epoxy coating over an electroplated substrate. Shelves with polymer mats offer a 20 year limited warranty against corrosion, while posts offer a 15 year warranty against corrosion. Microban® antimicrobial product protection is built into the frames, shelf mats, and posts. Units assemble easily — shelves mount on split sleeves along grooved, numbered posts and adjust on 1" (25mm) increments.

- **Easy to order:** Order preconfigured shelving units under convenient model numbers.
- **Prolonged durability:** Polymer shelf mats are corrosion proof and impact resistant. They will not chip, rust, or corrode.
- **Easy to clean:** Removable polymer shelf mats can easily be lifted off the shelf frames for cleaning in sinks or wash/dish machines.
- **Strong and robust:** Steel corners, side and center supports assure a sturdy and stable weight bearing surface.
Weight capacities for evenly distributed loads:
800 lbs. (363kg) per shelf for lengths of 24" to 48" (610 to 1220mm)
600 lbs. (275kg) per shelf for lengths of 54" (1370mm) or longer
2,000 lbs. (907kg) maximum per unit.
- **Microban® Product Protection:** Microban® antimicrobial product protection is built into the shelf mats and the Metroseal Green epoxy coating helps fight the growth of stain and odor-causing bacteria and product degradation. Microban® protection keeps the product "cleaner between cleanings."
- **Efficient use of storage space:** Shelves can be adjusted at 1" (25mm) increments.
- **Open Grid Shelf Mats** promote air circulation and light penetration.
- **Fast, Easy Assembly:** Super Erecta Pro units assemble easily in minutes, without tools. SiteSelect posts have numbered grooves and feature unique double grooves every 8" (203mm) to help position the shelves.
- **Warranty against rust and corrosion:** Shelves with polymer shelf mats – 20 years.
Posts – 15 years. Shelf mats are constructed of polypropylene and will never rust.

Material Specifications

- **Shelf frames:** Carbon steel with Metroseal Green epoxy coating.
- **Polymer Shelf Mats:** polypropylene.
- Microban® antimicrobial product protection is built into the polymer shelf mats and Metroseal Green epoxy coating.
- NSF listed for all environments.
- **Continuous Temperature:** Super Erecta Pro Shelves can be used continuously within a range of -20/120° F (-29/49° C) with intermittent exposure to 200° F (93° C).

NOTE: Not suitable for cart wash applications.

Starter Units:

consist of four open grid shelves and four posts.

Add-on Units:

consist of four or five shelves,
(2) posts, and S-Hook Brackets (2 per shelf).

Four tier units include (8) "S" Hook brackets.

Add-On units with "S" hooks
can only be attached to shelves
supported by two or more posts.

Note: Actual width, add 1/8" (3.2mm) to nominal width.
Actual Length, Subtract 1/8" (3.2mm) from nominal length.

Reference: Super Erecta Pro
uses Q9995Z "S" Hook bracket.
