

Soup Warmers Single Insets

SPECIFICATION SHEET

FAST FACTS

NSF listed Single Inset rethermalizers heat food quickly to a safe serving temperature, retain an accurate even temp all day long and preserve food quality and flavor by collecting and returning condensation captured by the hinged lid

APPLICATIONS

- Hold soups at the perfect temperature, from delicate cream-based soups to hearty stews and chili
- Great for heating proteins and other foods

DETAILS

- Compact rethermalizing warmers keep soups, proteins and other foods at the perfect temperature from the first serving until the last
- Larger capacity leaves room to stir
- FS-7 and FS-11 handles assist in opening larger lids ergonomically – no more reaching over steam
- Precise temperature control and accurate, even heat eliminates wasted servings – no scorching as product depletes

FS-4 Plus 81000

FS-7 84000

FS-11 84100

Food retains
flavor and quality
– the moisture-
conserving
lid returns
condensation
back to food

Purposefully made to last.

SOUP WARMERS MODELS: FS-4 PLUS, FS-7 & FS-11

Server models FS-4, FS-7 and FS-11 Rethermalizing Soup Warmers are a series of round, water-bath cookers/warmers constructed of stainless steel. Includes inset and lid assemblies. Hinged, moisture-conserving lid remains upright while ladling, and collects and returns moisture to food. An adjustable thermostat controls the wraparound heating element, and temperature settings are marked on the knob; The FS-4 Plus has a 5 quart inset and uses 500 watts of power, the FS-7 has a 7 quart inset and uses 1000 watts, and the FS-11 has an 11 quart inset and uses 1500 watts. Plug is NEMA 5-15P with 72" cord. NSF listed. Rethermalizer. C-UL-US listed. Two-year warranty.
