Topping Warmers SUPREME® BUTTER MERCHANDISER

SPECIFICATION SHEET

FAST FACTS

Supreme® Butter Merchandiser quickly and safely heats butter with a water-bath warmer and a temperature-sensing thermostat that eliminates hot spots and reduces the amount of food wasted by scorching and burning.

APPLICATIONS

- Theater, stadium and other amusement operations looking to dispense butter topping
- Create snack interest with merchandising graphics

DETAILS

- Precise portions keep food costs low – pump dispenses a max 1 oz portion, adjustable in $\frac{1}{8}$ oz increments
- Includes 3 qt stainless steel jar (94009)
- Keep lines moving and food costs under control with perfect portions every time
- Retain peak quality – the temperature-sensing thermostat prevents burning, and the lid holds in moisture
- Specially designed pump prevents butter from spraying
- Spout heater keeps toppings inside warm and fluid
- Merchandising magnet provides quick product identification

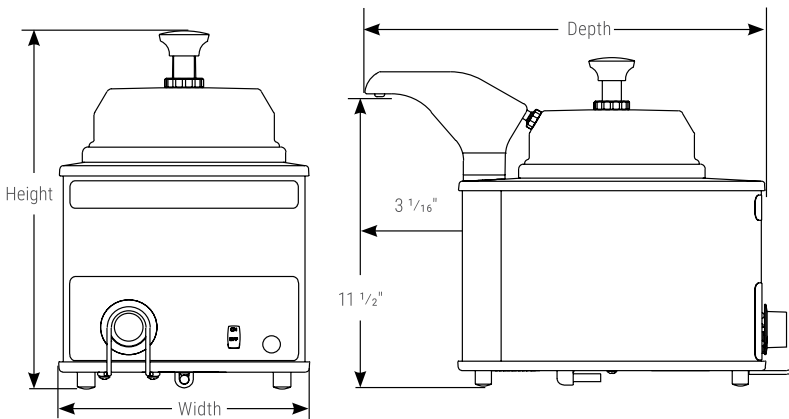

3 qt stainless steel jar included
94009

Your Spectators Will Savor The Experience.

SUPREME® BUTTER MERCHANDISER: MODEL BSW-SS

Server Model BSW-SS Supreme® Butter Merchandiser is constructed of stainless steel and black, thermoset plastic bottom and top panels. Dispense directly from the supplied 3 qt stainless steel jar or a manufacturer's #10 can (not included) with a stainless steel pump; 1 oz maximum portion reduces in 1/8 oz increments. A 500 watt heating element powered by an adjustable thermostat, and power is controlled by an ON/OFF rocker switch. The warmer base features a water-bath fill line, and includes a spout warmer. NSF listed. C-UL-US listed. Two-year warranty.
