LIDS FOR EVERY NEED

1 SECURE-SEALING LID

Two-seal system makes this lid the most airtight of all the Rubbermaid options and is ideal for longer-term storage or air-sensitive foods. Easy-grip tab allows for easy removal of the lid from the pan.

2 PEG HOLE COVER WITH HANDLE

Peg hole allows pan to be hung and dry faster, helping to prevent health risks from standing water. Rubbermaid's peg hole solution is the only NSF-certified hanging solution on the market.

3 NOTCHED COVER WITH HANDLE

NSF-certified notch allows spoon to be easily available while food remains covered. Notch keeps spoon handle out of food, complying with FDA Food Code.

4 SOFT-SEALING LID

Seals on insert pan help reduce airflow to food, therefore maintaining food quality. No overlap on food pans allows easy use in transport.

5 FLIP LID

Flip lids allow easy access to pan contents without having to remove the entire lid. Available in both notched and solid versions.

*DESIGNED TO EN 631-1 C.E.N. STANDARD

Developed by the European Committee for Standardization and based on a gastronorm modular system, ensures compatibility of the pans with other kitchen equipment.

**Oven-safe up to 375°F (191°C).
