# HIGHLIGHTS

## 1

### COFFEE

---

#### Swiss coffee technology

Stainless steel brewing unit for high quality espresso extractions and separate boilers to manage independently coffee and steam deliveries.

## 2

### MILK

---

#### Milk systems

Regulate the frothing level and milk temperature for each drink.

## 3

### ADD-ON

---

#### Total flexibility for every business

Configure your fully automatic coffee machine to suit your needs by choosing among many add-ons, fridges, optionals and payment systems.

## 4

### DESIGN

---

#### Built for a long service life

The focus on design, ergonomics and the choice of sustainable and durable components ensures maximum functionality and high reliability.

## 5

### INTERFACE

---

#### Easy drink selection

All versions are available with keypad or 5.7" touchscreen interface.

## 6

### CLEANING

---

#### Quick and easy cleaning

Cleaning and rinsing cycles are easy to run and can be completed in a just a few minutes.

# SWISS COFFEE TECHNOLOGY

## STAINLESS STEEL BREWING UNIT

The stainless steel brewing unit is available in two brewing chambers with different capacities, either 18 g or 22 g (optional).

## **E** SELF ADJUSTING GRINDER (SAG)

The Self Adjusting Grinder (optional) can correct any in-cup quality alterations in real time, ensuring coffee consistency in every cup.

- Egro Patented Technology

## STAINLESS STEEL FLAT BURRS

High-precision grinders are equipped with titanium coated stainless steel burrs to provide consistent coarseness for top-quality espresso brewing.

### 54 mm

BURRS DIAMETER

### 4

PRE-INFUSION LEVELS

### 3

PRESSURE LEVELS

## UP TO 2 BEAN HOPPERS

Choose up to two hoppers in order to always have two different coffee varieties available. A manual input enables the use of ground coffee to serve other types of coffee or decaffeinated coffee.

### 2x 1.3 kg /2.9 lb

BEAN HOPPER CAPACITY

## DUAL BOILER TECHNOLOGY

With the two independent hot water boilers, hot water and coffee can be dispensed simultaneously.

### 0.5 l /16.9 oz

COFFEE BOILER

### 1.9 l /64.2 oz

STEAM BOILER

# WATER AND STEAM

WATER

## HOT WATER OUTLET

Hot water for tea and herbal tea preparation is delivered from the main spout via a dedicated channel or via the water wand located on the right side of the machine (optional). For any given recipe it is possible to program the dosages and water temperature.

STEAM

## STEAM WAND

The manual steam wand, which is also available in a cool touch version, is the ideal solution for the professional barista.

## C-LEVER

The C-lever steam valve is operated by rotating the knob just 25°. Turning it upwards, the valve stays open. By turning it downwards, the valve opens and automatically closes when released.

- Egro Patented Technology

## iSTEAM

The iSteam wand (optional) is designed to heat and froth milk automatically, adjusting the consistency of the cream (6 levels) and the temperature of the milk via the interface. For superior steam performance, for the Pure Coffee version only, iSteam+ is also available.

# MILK

## 2 MILK SYSTEMS

Egro One offers two different systems for preparing fresh milk drinks: Quick Milk and Top Milk. Discover the solution that best suits your needs.

## QUICK MILK

Quick Milk is the right choice for those who do not have to manage a heavy workflow and want to offer their customers a menu with the great coffee classics such as cappuccino and latte macchiato. Quick Milk is an intuitive milk system that is easy to use and maintain. The Quick Milk system can be used with the MK4 fridge (4.5 l) or the FUM fridge (4 l).

## TOP MILK

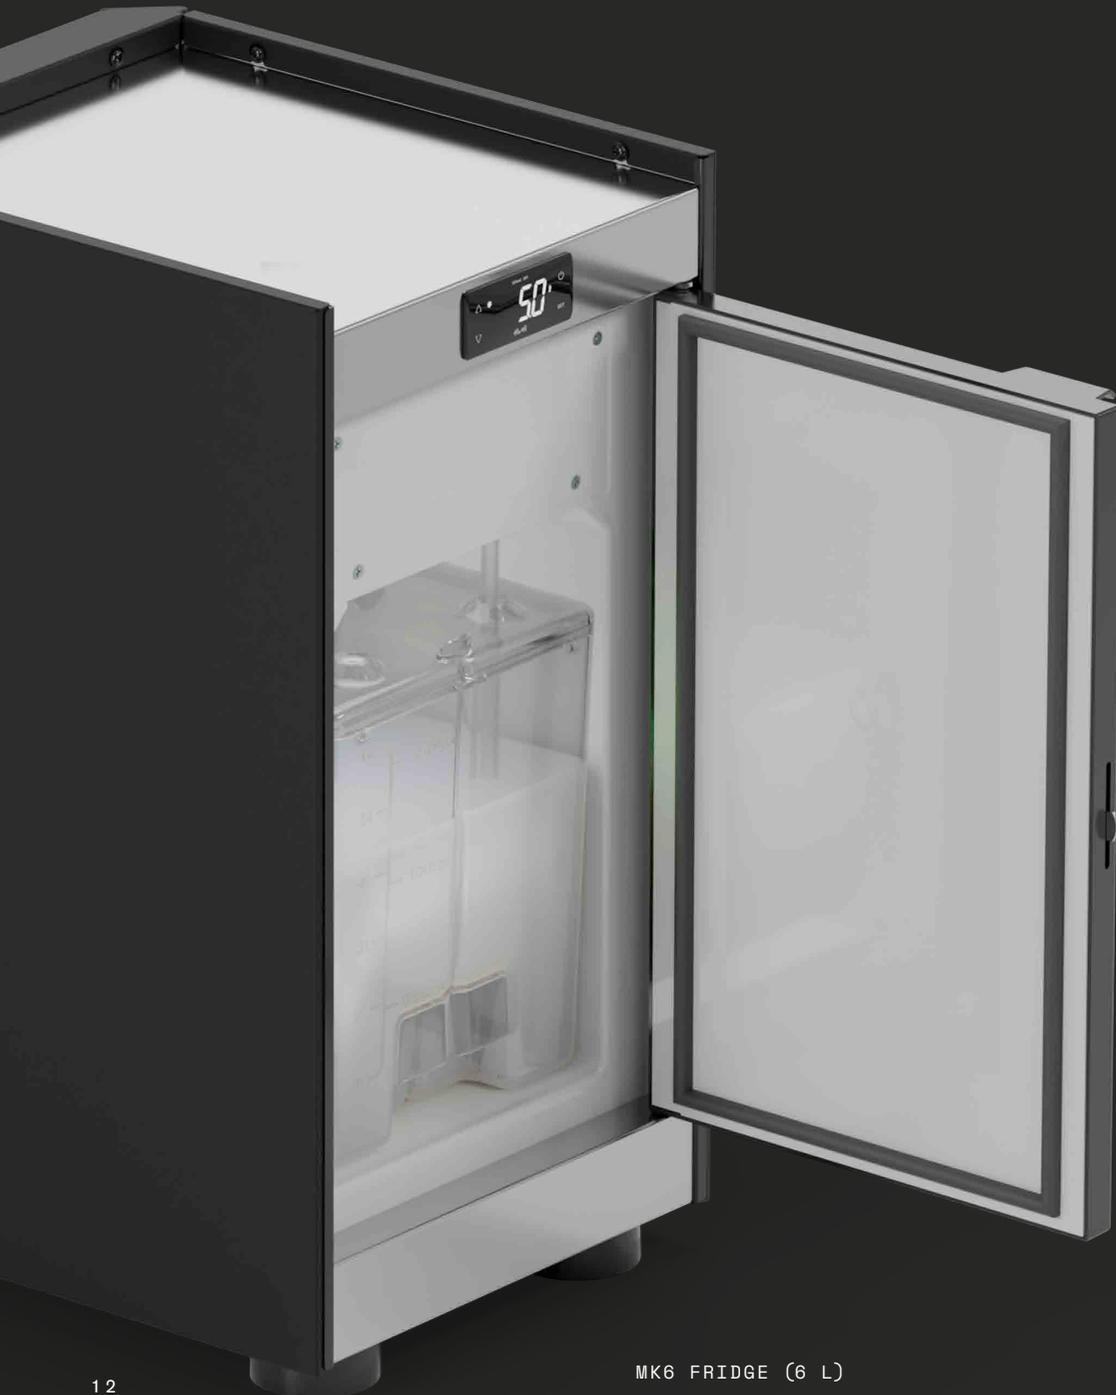

Top Milk is the ideal solution for all locations with a high consumption of milk-based drinks who want to customise each recipe and offer a complete cafeteria menu. You can adjust the temperature and milk frothing level for each drink and even work with two different types of fresh milk at the same time. The Top Milk system requires the installation of the MK6 refrigerator (6 l) or the FUM refrigerator (4 l) or an external pump module (SMPU) for refrigerators placed under the counter.

## COLD MILK FOAM (CMF)

The CMF system (optional) is the solution for automatically preparing cold milk foam for every drink by selecting three different frothing levels via the interface. CMF can only be configured for Top Milk milk system.

# FRIDGES

MK6 FRIDGE (6 L)

## MK4 FRIDGE

Perfectly designed for spaces with minimal counter area and a preference for fresh milk beverages, the MK4 compact 4.5-L fridge is a convenient solution with a single detachable milk container. This fridge is easily installable, and allows you to customize temperature settings effortlessly with the practical mini display on the front.

## FUM FRIDGE

4-litre fridge, with pump module and level sensor, which can be placed under the main unit of the machine to optimise worktop space.

## PUMP MODULES (SMPU)

For the Top Milk version, a wide range of pump modules is available to install the fridges under the counter.

## MK6 FRIDGE

6 litre fridge with display, level sensor and integrated pump module. On request, the MK6 fridge is available with the CMF system for cold milk foam. It can also be ordered in a version with two milk containers to work simultaneously with soya or skimmed milk. With the SMPU pump modules, the MK6 can also be installed under the counter to free up space on the worktop.

MK4 FRIDGE (4.5 L)

# INTERFACE

## KEYPAD VS TOUCHSCREEN

All versions of Egro One are available with keypad interface or 5.7" touchscreen. Both interfaces are intuitive, making it easy to navigate between the different screens and adjust the parameters of each drink on the menu.

KEYPAD  
+ 10-BUTTON KEYPAD  
+ 16 PRODUCTS

TOUCH  
+ 5.7" HD TOUCHSCREEN  
+ 48 PRODUCTS (6 PER PAGE)

## x12

MENU AVAILABLE IN 12 LANGUAGES: ENGLISH, ITALIAN, GERMAN, DUTCH, FRENCH, SPANISH, PORTUGUESE, RUSSIAN, SIMPLIFIED CHINESE, TRADITIONAL CHINESE, JAPANESE AND KOREAN.

## THREE ACCESS LEVELS

Egro One has three different menus dedicated to the barista, the manager and the technician to offer everyone the best user experience based on their different needs.

## QUEUE MODE

The selected items are placed in a queue, possibility for any drink to be brewed earlier or later, to be cancelled or others added.

## SELF-SERVICE MODE

All versions of Egro One can be configured in Self-Service mode for hotels and all locations that do not require a dedicated operator for the coffee machine. An optional kit (option Self) is also available, which includes locks for both the hoppers and the coffee grounds drawer, as well as indicators to correctly position the cups before dispensing.

# DESIGN

## FUNCTIONAL AND RELIABLE

---

The Egro One is synonymous with style and functionality. It has a strong, compact image and stands out for the quality of the materials that make up the group head and the ergonomic solutions.

## COLOR

---

BLACK

SPACE SAVING DESIGN

# 30 cm/12 in

MAIN UNIT WIDTH

## LED LIGHTS

---

Maximum visual comfort thanks to LED lights on the work area.

## AUTOMATIC SPOUT

---

The height of the dispensing spout adjusts automatically according to the selected drink and the type of cup in use. Up to 5 different positions can be programmed.

# CLEANING AND MAINTENANCE

## CLEANING

### CLEANING CYCLE

The operator can carry out a complete cleaning cycle of the circuits by following the instructions displayed on the interface.

**4-9** MINUTES\*

Duration of daily wash cycle with hot water, air, steam and detergents.

\*depending on configuration

### AUTOMATIC RINSING

It is possible to program an automatic rinse cycle after a set time interval.

## MAINTENANCE

### EASY ACCESS TO ALL COMPONENTS

Quick access to all major internal components facilitates maintenance and cleaning. The cup tray and dispensing spout are easy to dismantle and can be washed in the dishwasher.

### DURA BREW

Dura Brew is a hermetically sealed system requiring little maintenance, and thus reducing the total cost of ownership.

### USB PORT

USB port for transferring technical data and uploading images and videos.

# ADD-ON

## BENEFITS

Configure your Egro One and grow your business with the offer of add-ons.

EGRO ONE

- + MK6 FRIDGE
- + POWDER MODULE
- + CUP WARMER

## GUM

External container for coffee grounds to be placed under the machine.
