

NEW

Ice Machine Cleaner

PRODUCT CODE: ICECLEAN01

CASE QUANTITY: 24 bags

DESCRIPTION: Colorless and odorless, powdered agent

CONCENTRATION: 55g (1 bag) for 0.66 Gallons of water

Sold individually

BREMA's NEW Ice Machine Cleaner simplifies maintenance. Designed exclusively for all BREMA machines, it will completely clean and descale the interior and exterior surfaces of your ice maker.

RECOMMENDED USE

A diluted solution of Ice Machine Cleaner and water can be poured directly into the water basin to clean the interior or applied directly to interior/exterior components and surfaces with a disinfected mop/sponge. Rinse thoroughly with clean water before next ice production cycle.

FREQUENCY

Machine (AWS compatible or not): Run the Ice Machine Cleaner through your ice maker once a month, as explained in the Instruction Manual provided with your machine. It can also be used to wash the exterior surfaces. Rinse thoroughly with clean water before next ice production cycle.

Interior components: Use the Ice Machine Cleaner to properly clean the interior components of your machine once every 3 months. Rinse thoroughly with clean water before replacing inside the ice maker.

*This product is sold for and is intended exclusively for cleaning Brema ice machines and its components. Please consult the Safety Data Sheet for complete chemical and safety information.

Always refer to the Instruction Manual for complete instructions before first use.
