measurement (included with all
models except 420-3000)

Model 420-1200

DIGITAL PRECISION BALANCE SCALES

Class II NTEP Legal-for-Trade 420 Series

Model 420-100

DETECTO's 420 series digital precision balance scales are class II legal for trade and can be used for weighing herbs, cannabis, gourmet coffee and tea shops, jewels, and precious metals (gold and silver) in retail business with 10, 20, or 50 mg precision. The 420 series is NTEP and OIML legal for trade (excluding models 420-100 and 420-2000) and features a built-in rechargeable battery, RS232 serial port for printer output, and eight different units of measure.

DIGITAL PRECISION BALANCE SCALES

DP Series for High-Volume or Heavy Sampling with High Accuracy

Model DP-15000

DETECTO's DP series digital precision balance scales are ideal for foodservice weighing, recipe making, baking, soap making, and inventory parts counting. The DP series feature accuracy to 50 milligrams, RS232 serial port for printer output, counting mode, 17 different units of measure, built-in rechargeable battery included, nearly one-inch-high (23-mm-high) bold digits with blue backlight, and they are intuitive and easy to use.

15,000 g x 0.05 g or 30,000 g x 0.1 g capacities available

13 in x 10 in stainless steel platform

Nearly one-inch-high (23-mm-high) bold digits with blue backlight

Built-in rechargeable battery included

Intuitive and easy to use

Model DP-30000

4 lb x 0.1 oz, 2,000 g x 1 g capacity

Multiple units: pounds/ounces
and grams

5.9 in x 4.75 in stainless steel platform

Powered by one 9VDC battery (not
included) or AC adapter (included)

Small footprint conserves
counter space

Model PS4
with optional Ice
Cream Cone Holder

4-LB CAPACITY, HIGH-ACCURACY DIGITAL PORTION SCALES

PS-4 Compact Portion Control Scales and Optional Ice Cream Holder

Model PS4

DETECTO's PS4 portion scale features a smooth, molded stainless steel enclosure and a lift-off stainless steel commodity tray for easy cleaning. This scale is simple to operate and features a sealed membrane keypad, 0.8 inch-high 5-digit LCD display, NSF certification, and is accurate to 0.1 oz. DETECTO also offers an optional stainless steel ice cream cone holder available as single or double (model ICH1 or ICH2). DETECTO's cone holder tray is removable, so the scale may be used for weighing cups and other portioning needs.

7-LB CAPACITY DIGITAL PORTION SCALES

PS-7 Rechargeable Battery-Operated Portion Scales

Model PS7

DETECTO's NSF-approved model PS-7 portion scale features a smooth, molded poly enclosure, sealed membrane keypad, and lift-off stainless steel commodity tray for easy cleaning. With a 0.8-inch-high 5-digit LCD display, this scale is ideal for restaurants, cafeterias, delis and pizza parlors. The checkweighing function allows the LCD to change color based on Under/Accept/Over preset target weights that you select. Use the PS-7 wherever food is weighed, portioned, or dispensed.

7 lb x 0.1 oz, 112 oz x 1/8 oz,
3,000 g x 1 g capacity

8 in x 5 in stainless steel platform

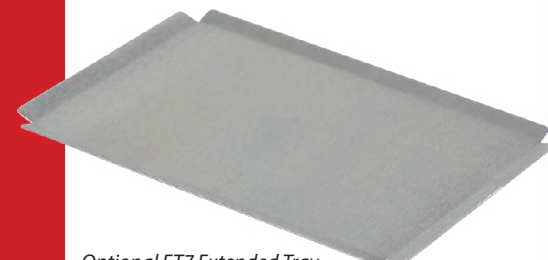

IP52 water resistant enclosure

AC adapter and built-in rechargeable
battery pack included

May disable different units of measure

Optional ET7 Extended Tray

Built specifically for the
PS7 to extend the tray size to
9.5 in W x 6.8 in D / 24 cm W x 17 cm D

11 lb x 0.1 oz, 5000 g x 2 g,
11 lb x 0.005 lb capacity

6.9 in x 6.5 in stainless steel platform

Easy-to-read display, 0.8-in-high digits

Built-in rechargeable battery power

IP52 water resistant enclosure

11-LB CAPACITY STAINLESS STEEL PORTION SCALES

PS-11 Multi-Purpose Digital Portion Scales

Model PS11

Model PS11

DETECTO's PS11 stainless steel portion control scale is able to switch between five different units of measurement with the push of a button. The checkweighing function allows the LCD to change color based on Under/Accept/Over preset target weights that you select. The display backlight will be turned on during weighing and will automatically turn off 5 seconds after the weight has been removed from the scale. The PS-11 features a 0.8 in (20 mm) high 5-digit LCD display and is NSF approved.

SUBMERSIBLE IP-67 RATED PORTION SCALES

12-lb Capacity Mariner® WPS12 Washdown, Easy-to-Clean Digital Scales

Model WPS12

DETECTO's Mariner® WPS12 washdown portion control scale is submersible underwater for easy clean-up after messy weighing applications. This NSF-certified stainless steel scale offers a dual power source of rechargeable battery power or 120V AC adapter (included) with a watertight AC plug on the side. The 1.2-inch-high LCD with large 1 inch-high bold digits make readouts quick and easy to view. The Mariner® saves time and helps reduce the risk of bacteria harboring in the nooks and crannies of the scale by providing complete submersion when washing for sanitary environments.

12 lb x 0.1 oz, 192 oz x 1/8 oz,
5,500 g x 1 g capacity

1.2-in-high backlit blue LCD

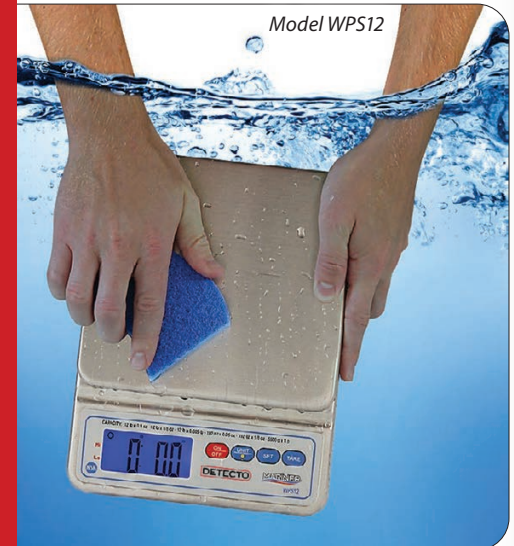

Stainless steel scale and

Washdown IP68 waterproof rating

NTEP and OIML legal for trade

Stainless steel platform and base

Model WPB-12

WATERPROOF LEGAL-FOR-TRADE PORTION SCALES

WPB Series Scales for Heavy Washdown Environments
Requiring Checkweighing Applications

Model WPB-30

DETECTO's WPB series waterproof portion scales are NTEP and OIML legal for trade and come in 6, 12, and 30 lb capacities. The WPB series features an IP68-rated stainless steel platform and scale base and rechargeable battery power included. The versatile scales offer checkweighing, counting mode, dual range weight, built-in 120V AC power cord, compact size, accuracy to 1 gram, 0.56-in-high (14-mm-high) LED digits, and they are intuitive and easy to use.

ALL-PURPOSE STAINLESS STEEL COMPACT SCALES

NTEP Legal-for-Trade AP Series Portion Control Scales

Model AP6

The stainless steel AP series portion control scales are ideal for a variety of applications, including food service, industrial, chemical, food, drug, and hardware retail establishments. DETECTO's AP series features a 0.5-inch-high bright-red LED display, accuracy to 0.05 ounce, and AC power adapter (included). NTEP and Measurement Canada legal-for-trade certification enables commercial weighing (excluding model AP-20).

4 kg, 6 lb, 8 lb, 10 lb,
and 20 lb capacities

Stainless steel scale and 6.75 in x 5.25 in
stainless steel platform

AC adapter is included

Gross, Tare, and Net buttons

Model AP-4KD
features stainless steel tray

30 lb x 0.1 oz / 15 kg x 5 g capacity

13-in-diameter round platter or
17 x 13 in rectangular platter

Built-in rechargeable battery power
and AC adapter included

Patented 360° rotating platform

Displays individual ingredient weights
and total product weight

INGREDIENT SCALES OFFER QUICK ROI

**RP30 Series Digital Ingredient Scales with Patented
360-Degree Rotating Platforms**

Model RP30R

Model RP30S

The DETECTO RP30 series allows you to view the exact amount of ingredients as they're being applied to the food product you're building directly on the scale, reducing ingredient inventory costs based on weight. With a busy bakery, pizza kitchen, or sandwich shop completing several finished goods per hour, product savings adds up fast. The rotating platform further reduces production time and allows for an even distribution of ingredients, creating big savings and a fast payback on investment.

WIRELESS DIGITAL INGREDIENT SCALES

PZ30W and PZ60W Scales with Wireless Connectivity Between
Scale and Indicator

Model PZ60W

DETECTO's stainless steel PZ series digital scales feature Wave-a-Weigh hands-free tare for totally touchless zeroing of each ingredient's weight for more sanitary conditions and faster food prep times. The weight indicator and scale base are connected wirelessly, so you may position the indicator up to 30 feet from the scale base. The display comes with mounting hardware to affix it to the wall or it can be set on a level surface. Functions include weight hold, tare, units switching, and three selectable wireless channels.

Available in 30 lb and
60 lb capacities

lb: oz (decimals), lb:
oz (fractions), and kg

14 in W x 14 in D x 1.6 in H
stainless steel platform

10 AA batteries (not included) or
AC adapter (included)

Hands-free tare for faster prep times

Model PZ60W

Multiple capacities and platform sizes to choose from

16 oz x ¼ oz up to 200 lb x 8 oz capacities available

Choice of stainless steel or white baked enamel finish

Fixed or rotating dials

Air dashpot models available

Model T50

TOP LOADING DIAL SCALES

PT and T Series Top Loading Dial Scales

Model PT-500SRK

Available in baked enamel or stainless steel, DETECTO's PT and T series are the top loader product lines of choice. They feature sturdy construction, stability, convenient weight viewing angle, bright-red pointer, and temperature compensation for dependable accuracy and easy readability. Available in a number of different capacities, these top loaders can be used for a variety of applications. Most models feature a 5.75-in-square stainless steel platform. Some models include a bowl.

DEPENDABLE BAKER'S DOUGH SCALES

Durable 1001TB/1002TB and 1051TB/1052TB Series Scales

Model 1001TB

DETECTO's long-lasting baker's dough scales are manufactured in durable USDA-approved oven-baked enamel finish or a rugged USDA-approved stainless steel design. The scales feature precision-built hardened-steel pivots, accurate and even balances, and V-shaped, hardened bearings. A seamless, easy-to-clean plastic scoop is included with some models. A favorite of bakers since 1900, DETECTO's durable, dependable baker's dough scales provide long-term, accurate weighing.

8 lb, 16 lb, 5 kg, and 8 kg capacities

9 in / 23 cm diameter platforms

USDA approved

Baked enamel or stainless steel models

PRICE COMPUTING SCALES WITH BUILT-IN PRINTER

DL Series Networkable Price Computing Scales with Integral Label Printer

Model DL1030

DETECTO's DL series networkable price computing scales with integral label printers include a 12.8 in W x 8.9 in D stainless steel platform and inventory reporting capabilities by PLU. The DL series feature multiple connectivity ports (USB, Ethernet, and RS232 serial), alphanumeric display (upper and lower case characters), and 4 LED display windows and 1 dot matrix text screen. Universal label printing compatibilities include 50 label types available via included PC software.

30 lb x 0.01 lb or 60 lb x 0.02 lb capacities available

Includes PC software CD with drag-and drop graphics setup

4 models to choose from

5,990 PLU's (highest in the industry out of the box)

Available with or without tower pole display

Model DL1030P

Four models: 240 oz x 0.1 oz,
15 lb x 0.005 lb, 30 lb x 0.01 lb or
60 lb x 0.02 lb capacities

12.6 W x 9 in D platform size

RS232 serial port for label
printer connectivity

Up to 99 easy-to-add PLUs for
quick reference

Displays Weight, Unit Price, and
Total Price with operator and
customer views

The D/DM series' RS232 serial port allows you to connect a label printer, such as the easy-to-use model P225 thermal printer with plug-and-play compatibility and fixed formatting.

LOW-PROFILE PRICE COMPUTING SCALES

D/DM Series Digital Price Computing Scales and Optional Label Printer

Model D30

Model DM15

DETECTO's D/DM Series price computing scales offer a dual power source of a rechargeable battery pack and 110/120VAC 50/60 Hz adapter (included) for reliable use at farmer's markets, delis, bakeries, candy and coffee shops, produce markets, and hardware stores. The D/DM series' Pre-Pack key saves time by retaining the Unit Price and Tare for repetitive price computing, making the operator's job even faster. The D/DM series feature an auto shut-off, sleep, and backlight off mode extending the retail scales' battery life.

NTEP DIGITAL HANGING SCALES AVAILABLE WITH QR CODE LCD DISPLAY

SCS30 Solar-Powered Hanging Scale with Optional HS-Stand

DETECTO's exclusive solar-powered hanging scale is easy to operate with no buttons to press and features pinpoint accuracy to 0.02 lb/0.01 kg. Automated grocery shopping systems can integrate the QR code LCD display window for self-checkout processes. The stainless steel produce pan, hanging assembly, and two S-hooks are included, so the scale is ready to use right out of the box, just add light! The model SCS30 is ideal for grocery stores, farmers markets, and hardware stores. Requires minimum 400 lux.

30 lb x 0.01 lb /
15 kg x 0.005 kg capacity

DIGITAL HANGING SCALES

HSDC Series, Battery-Powered Digital Hanging Scales

Model HSDC

The HSDC series digital hanging scales feature aluminum alloy enclosures for lightweight strength. The HSDC series is powered by 6 C batteries (not included) and provides lightning-fast and accurate digital readouts. This scale has NTEP legal-for-trade certification and Gross, Tare, and Net keys. The model HSDC-20KGP includes a stainless steel bowl for conveniently easy weighing. The HSDC series is ideal for fish weighing, curbside recycling collection, butchery/meat processing, industrial applications, and supermarkets.

ECONOMICAL HANGING DIAL SCALES

MCS Series Economical Produce Weighing Hanging Dial Scales

Model MCS20F

Portion fruit, vegetables, nuts, seafood, and even hardware parts with DETECTO's MCS series mechanical hanging scales. These economical MCS series dial scales feature an 8 inch (20 cm) diameter dial and bright-red pointer that is easy to read and protected by a plastic lens. Multiple models are available and feature your choice of single or double dial with stainless steel bowl, galvanized scoop, or a heavy-duty plated 4-inch S-hook to suspend commodities while weighing.

Available in capacities of 20 lb or 40 lb

No power required

Available with double dial

Models with galvanized scoops or stainless steel bowls

Plastic housing eliminates dents and scratches, enhancing long-term use and accuracy

Model MCS-40DP

14.5-in-diameter dial

NTEP legal for trade

Readable from both sides

Includes stainless steel bowl

Protective glass plate over dial face

LARGE-SIZE NTEP HANGING DIAL SCALES

T3530 Scales with Oversized 14.5-in-Diameter Dials

Model T3530

DETECTO's T3530 series hanging dial scales feature a deep 13.5-in/34-cm diameter removable stainless steel bowl with 3 drainage holes, making them ideal for foodservice or medical weighing use. Protective glass plates cover the giant 14.5-in/37-cm diameter dials with extra-large readouts visible from both sides. Available in avoirdupois or metric models: 32 lb capacity (10 lb x 1 oz) or 15 kg capacity (5 kg x 25 g). Full capacity is reached in 3 revolutions of the dial.

GENERAL PURPOSE COMPACT DIGITAL PORTABLE SCALES

DR150/DR400 Low-Profile, Economical Receiving Scales

DETECTO's DR150/400 portable digital scales are accurate, reliable, lightweight and offer an economical advantage in a variety of environments, including receiving departments, warehouses, and general purpose weighing. Measurement options include pounds or kilograms (pushbutton selectable). The indicator includes a mounting bracket, so it may be affixed against a wall. The DR series uses 6 AA batteries (not included) or an AC adapter (included). An optional carrying case is available for transporting the scale.

NTEP LEGAL-FOR-TRADE STAINLESS STEEL BENCH SCALES

EB-185B Digital Bench Scales with Rechargeable Batteries

Model EB-60-185B

Model EB-300-185B

These NTEP and Measurement Canada legal-for-trade EB bench scales feature a high-quality 304 stainless steel platform, sturdy solid base, and 185B Rival digital weight indicator mounted to the stainless steel column. The lift-off platform cover simplifies clean-up in messy environments. The EB series is available in 15, 30, 60, 150 and 300 lb capacities in a variety of platform sizes. Since the scale can be powered by 6 AA rechargeable batteries, it's completely portable for moving around to multiple locations.

WASHDOWN STAINLESS STEEL BENCH SCALES

Durable CA-190 Bench Scales Featuring ColorZone Checkweighing

Model CA12-60W-190

DETECTO's CA-190 series bench scale indicators are impact resistant and protected from sharp objects. Stainless steel construction of the scale platform and column ensures easy clean-up and long-lasting quality. Other scale features include a 1-inch-high LCD, built-in RS232 communications port, and versatile power options (including rechargeable battery power). The bright, vivid 190 STORM display changes color automatically as the pre-assigned target weights are reached.

Free 190 Targets PC software for updating checkweighing settings for up to 10 scales over a network

IP69K-rated scale for high-pressure and high-temperature washdown applications

ColorZONE checkweighing for Over/Under verification

Capacitive touch keys sense human contact

Optional internal Wi-Fi inside 190 indicator

Model CA12-60W-190

500 lb x 0.2 lb / 220 kg x 0.1 kg and
1,000 lb x 0.5 lb / 440 kg x 0.2 kg
capacities

19 in x 28 in platform

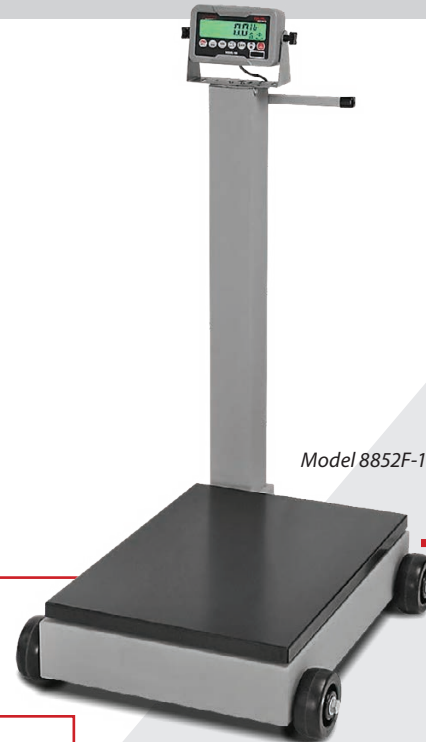

Column-mounted indicator (4 different
indicator models to choose from)

Wheels for mobility

Serial output for label
printer connectivity

Model 8852F-185B

Model 8852F-185B

Portable and attractive, these digital portable scales with 5-inch diameter rubolene wheels let the weighing come to you. With a platform size of 19 x 28 inch and capacities of 500 or 1,000 lbs, there is very little these scales aren't capable of weighing. Models are constructed entirely of heavy-duty welded, fabricated steel with electrostatic paint coating, and they are equipped with either a 185, 190, 205, or 210 digital weight indicator having push button tare, pounds/kilograms conversion, and RS232 serial output. NTEP legal-for trade certified. Battery power is available on some models.

PORTABLE BEAM SCALES

854F Series Mechanical Weighbeam Floor Scales

Model 854F100P

These legal-for-trade portable floor scales let the weighing come to you. They offer maintenance-free operation through their lever system and require no power to operate, providing years of trouble-free use in tough environments. The die-cast beam with easy-to-read numbers is viewable on the front and back. These scales are ideal for weighing propane tanks and use in hazardous locations due to their mechanical design. They are lightweight (116 lb / 53 kg net weight) and easy to maneuver with their four large rubolene wheels.

1,000 lb, 500 lb, 500 kg, and 1,000 lb/500 kg capacities available

19 in x 28 in platform

No power required for complete portability

May be used in intrinsically safe environments and locations without access to electricity

Die-cast weighbeam may be read from either side

Model 854F100P

550 lb / 250 kg capacity

Spacious 36 in x 22 in
stainless steel platform

1-in-high LCD

Powered by AC power adapter
(included) or 4 AA batteries

Integral carrying handle
and dual wheels

DIGITAL LAUNDRY SCALES

Large-Platform VET550 for Weighing Laundry Bags and Linens

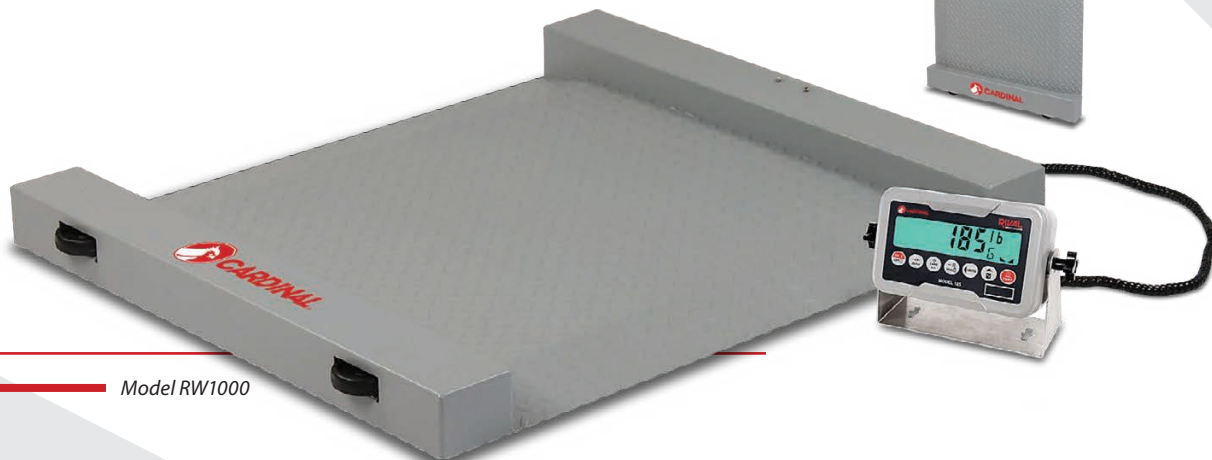

Model VET550

This economical, portable scale with a 1-in/25-mm high readout and durable stainless steel platform measuring 36 W x 22 D x 2 H in is the ideal scale for weighing laundry bags accurately. The VET550 can be powered by 4 AA batteries (not included) and it comes with an AC adapter. The scale's light weight combined with wheels and carrying handle make it ultra portable. DETECTO's VET550 offers a 550 lb x 0.2 lb / 250 kg x 0.1 kg capacity and the display's lengthy cable allows it to be positioned away from the platform, wherever the weight display is convenient for viewing.

RUN-A-WEIGH PORTABLE FLOOR SCALES

Two-Way, Easy-Access Integral Ramps

Model RW1000

The Run-a-Weigh portable floor scale rolls to any part of a facility and is instantly ready for accurate weighing. The Run-a-Weigh weighs in at less than 100 pounds and features built-in handles and wheels, so it's easy to lift and roll wherever you need it. Whether it's weighing multiple locations at a single facility or the need to take the scale to a special job site, the Run-a-Weigh gives you true portability. The weight indicator can be set on the floor for mobile use or mounted on a wall or desk for convenient viewing. The coiled load cell cable provides 15 ft. extension for connection to the indicator.

500 lb x 0.2 lb / 225 kg x 0.1 kg
or 1,000 lb x 0.5 lb / 450 kg x 0.2 kg

10,000 lb x 2 lb capacity

4 x 4 ft checkered steel deck platform

3/16-in-thick checkered
steel deck protection

Load cell feet swivel to
find level ground

Industrial tan UV-protected powder
coat paint for long-lasting durability

Model EH-1044-190

Model EH-544-190

The Echelon EH floor scales provide exceptional performance in NTEP legal-for-trade applications for warehouses, logistics, processing plants, and shipping/ receiving departments. Ideally suited for pallet, drum, and package weighing, the Echelon's checkered carbon steel deck tread-plate with powder-coat paint handles rugged industrial weighing use. The EH series features 4-ft-square platforms, NTEP-approved IP67 waterproof anti-corrosion shear beam load cells, 3/16"-thick checkered steel deck, 2.2-in/ 5.6-cm diameter rubber feet, and durable structural steel channel.

GLOVE BOX HOLDERS

Mild Steel and Stainless Steel GH Series Universal Glove Box Holders

Model GH2SS

Model GH1

Conserve counter space with DETECTO's white baked epoxy finish or stainless steel universal glove box holders. The open face design allows you to see what size or type of glove is being dispensed. The holders are universal enough to hold most glove box types where counter or shelf space is limited. GH models are available capable of holding one, two, or three boxes of gloves. The glove box holders come with a DETECTO lifetime guarantee.

Models capable of holding one, two, or three boxes of gloves

Installs in seconds – mounting hardware included

Private labeling available

Accommodates most glove box types

Open face design

Model GH1SS

Available in 5 sizes: 16qt, 24qt, 32qt, 48qt and 100qt capacities

UL listed (except models C-100, P-100, and P-100R)

Available in 3 finishes: baked epoxy painted red or white and stainless steel

Heavy-duty foot pedal and self-closing lid for no-touch garbage disposal

Long-lasting trash can quality for food waste

Model P32R

WASTE RECEPTACLES

Ruggedly-Built Flame-Retardant P, PR, and C Series Step-On Cans for Food Waste

Model P Series

Model PR Series

Model C Series

Named for their rugged toughness that a person can actually stand on, DETECTO's step-on cans are perfect for commercial foodservice waste disposal. The step-on-cans are equipped with a heavy-duty foot pedal and linkage design and feature a bag securing mechanism. The trash cans are available in either stainless steel or a baked epoxy finish (available in white or red) and they are flame retardant. Five different can sizes are available to meet your specific sizing requirements.
