11-LB CAPACITY STAINLESS STEEL PORTION SCALES

PS-11 Multi-Purpose Digital Portion Scales

Model PS11

Model PS11

DETECTO's PS11 stainless steel portion control scale is able to switch between five different units of measurement with the push of a button. The checkweighing function allows the LCD to change color based on Under/Accept/Over preset target weights that you select. The display backlight will be turned on during weighing and will automatically turn off 5 seconds after the weight has been removed from the scale. The PS-11 features a 0.8 in (20 mm) high 5-digit LCD display and is NSF approved.
