

RELIABILITY BUILT IN™

Limited One Year Warranty

T&S warrants to the original purchaser (other than for purposes of resale) that such product is free from defects in material and workmanship for a period of one (1) year from the date of purchase. During this one-year warranty period, if the product is found to be defective, T&S shall, at its options, repair and/or replace it. To obtain warranty service, products must be returned to...

*T&S Brass and Bronze Works, Inc.
Attn: Warranty Repair Department
2 Saddleback Cove
Travelers Rest, SC 29690*

Shipping, freight, insurance, and other transportation charges of the product to T&S and the return of repaired or replaced product to the purchaser are the responsibility of the purchaser. Repair and/or replacement shall be made within a reasonable time after receipt by T&S of the returned product. This warranty does not cover items which have received secondary finishing or have been altered or modified after purchase, or for defects caused by physical abuse to or misuse of the product, or shipment of the products.

Any express warranty not provided herein, and any remedy for Breach of Contract which might arise, is hereby excluded and disclaimed. Any implied warranties of merchantability or fitness for a particular purpose are limited to one year in duration. Under no circumstances shall T&S be liable for loss of use or any special consequential costs, expenses or damages.

Some states do not allow limitations on how long and implied warranty lasts or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. Specific rights under this warranty and other rights vary from state to state.

General Instructions

Installation: B-0475

1. Shut off water supply and drain lines.
2. Drill (2) two 9/32" diameter holes, 4-1/2" center to center in horizontal sink support bar.

3. Place no.14 on top of no.2, mount no.1 to horizontal support bar using no.3 and no.15.
4. Apply teflon tape or pipe joint compound to threads of water supply lines.

5. Connect water supply lines and check for leaks.

Note: If horizontal sink support bar is not available, one of two wall supports must be installed:

Installation: B-0473

Wall Support

1. Determine actual measurements (wall to front) and use measurements below as a guide.

Note: No.19 can be shortened.

2. After trimming no.19 to desired length (if necessary), mount no.21 on wall with (3) three 7/16" [1cm] bolts.
3. Mount no.1 on no.16 with no.3.
4. Apply teflon tape or pipe joint compound to threads. Connect water supply lines to (3) three 1/2" NPT (National Pipe Thread). 2- inlets, 1- outlet to no.1.

Instrucciones Generales

Instalación: B-0475

1. Cierre la fuente de agua y desagüe las tuberías.
2. Perfore (2) dos huecos de .71 cm de diámetro, con 10.2 cm de centro a centro en la barra horizontal de soporte del lavatorio.

3. Coloque la parte No.14 encima de la parte No.2, monte la parte No.1 a la barra horizontal de soporte usando la parte No.3 y la parte No.15.

4. Aplique cinta de Teflon o compuesto de conyuntura a las roscas de las líneas de entrada.

5. Conecte las líneas de surtido e inspeccione por filtraciones.

Nota: Si la barra horizontal de soporte no está disponible, uno de dos soportes con montadura para la pared tiene que ser instalado:

Instalación: B-0473 Soporte Con Montadura Para La Pared

1. Determine las medidas actuales (de la pared al frente) y use las medidas de abajo como guía.

Nota: La parte No.19 puede ser acortada.

2. Después de haber recortado la parte No.19 a un tamaño deseado (si es necesario), monte la parte No.21 en la pared con (3) tres tornillos de 7/16\" [1 cm].

3. Monte la parte No.1 en la parte No.16 con la parte No.3.

4. Aplique cinta de Teflon o compuesto de conyuntura a las roscas. Conecte las líneas de surtido a las (3) tres 1/2\" NPT (Roscas De Tubería Nacional). 2- entradas, 1- salida a la parte No.1.

Vista de atrás de la Parte No.2

Instrucciones Generales

Installation: Wall Bracket

1. Determine las medidas actuales (de la pared al frente) y use las medidas de abajo como guía.

Permita aprox. el largo en la pared No.10 que se extienda en el frente de la Sentina.

2. Coloque la arte No.14 sobre la parte No.2 y asegúrela con las partes No.3 y No.15.

3. Perfore (3) tres huecos de 9/32\" [0.71 cm] de diámetro en la pared usando la parte No.23 como guía. Monte la parte No.23 para recibir la tubería de surtido de agua de la pared a la parte No.26.

4. Apriete firmemente las partes No.24 y No.25 dentro de la parte No.26. Si es necesario ajuste la parte No.26 para acomodar el tubo.

5. Aplique cinta de Teflon o compuesto de coyuntura a las roscas. Conecte las líneas de surtido de agua, 1/2\" NPT (Rosca De Tubería Nacional) para 2- entradas, 1- salida a la parte No.2.

Instructions Générales

L'Installation : B-0475

1. Fermer la réserve de l'eau et égoutter la tuyauterie.
2. Percer (2) deux trous, avec un diamètre de $9/32''$ [7.1 cm], $4-1/2''$ [10.2 cm] de centre à centre dans la barre horizontale du support de l'évier.

3. Mettre N°14 sur le haut de N°2, monter N°1 sur la barre du support horizontale en utilisant N°3 et N°15.

4. Appliquer le ruban en Téflon ou le composé pour les tuyaux aux filets des tuyaux qui fournir l'eau.

5. Brancher les tuyaux qui fournir l'eau et vérifier s'il y a des fuites.

Noter: Si la barre du support horizontale de l'évier n'est pas disponible, un des deux supports du mur doit être installé.

L'Installation : B-0473

Le Support du Mur

1. Déterminer la mesure actuelle (du mur à la face) et utiliser la mesure ci-dessous comme un guide.

Noter: On peut raccourcir N°19.

Permettre la longueur approximative de N°10 prolonger devant le lavabo

2. Après vous couper N°19 à la longueur désirée (si nécessaire) Monter N°21 au mur avec (3) trois boulons de 1 cm.

3. Monter N°1 sur N°16 avec N°3.

4. Appliquer le ruban en Téflon ou le composé pour les tuyaux aux filets. Brancher les tuyaux qui fournir l'eau, $1/2''$ NPT (en Anglais -National Pipe Thread- la traduction littérale en Français: le filet de tuyau national) pour 2-arrivées, 1-sortie à N°1.

Instructions Générales

L'Installation: Le Support Du Mur

1. Déterminer la mesure actuelle (du mur à la face) et utiliser les mesures ci-dessous comme un guide

2. Mettre N°.14 sur N°.2 et attacher avec N°.3 et N°.15.

3. Percer (3) trois trous avec un diamètre de 9/32" [x cm] dans le mur en utilisant N°.23 comme un guide. Monter N°.23 pour recevoir les tuyaux qui fournir l'eau du mur à N°.26.

4. Ressermer fermement N°.24 et N°.25 dans N°.26. Régler N°.26 comme nécessaire pour le tuyau.

5. Appliquer le ruban en Téflon ou le composé pour les tuyaux aux filets. Brancher les tuyaux qui fournir l'eau, 1/2" NPT (National Pipe Threads) pour 2-arrivées, 1-sortie à N°.2.

la vue arrière de N°.2

Allgemeine Anleitungen

Installation: B-0475

1. Wasserzufuhr absperren und Leitungen entleeren.
2. 2 (zwei) 0,71 cm Löcher mit 10,2 cm Abstand in die horizontale Spültischebohrung bohren.

3. Nr.14 auf Nr.2 stellen, Nr.1 unter Benutzung von Nr.3 und Nr.15 auf eine horizontale Stützstange montieren.

4. Teflonband oder Rohrkittmasse auf das Gewinde der Wasserzufuhrleitungen auftragen.

5. Wasserzufluß anschließen und auf Dichtigkeit prüfen.

Anmerkung: Falls keine horizontale Spültischstütze vorhanden ist, müssen ein oder zwei Wandstützen angebracht werden:

Installation: B-0473 WANDSTÜTZEN

1. Die tatsächlichen Maße (von der Wand bis zur Vorderseite) feststellen und die Maße im folgenden als Maßstab benutzen.

Anmerkung: Nr.19 kann gekürzt werden.

2. Nachdem Nr. 19 (falls erforderlich) auf die gewünschte Länge verkürzt worden ist, Nr. 21 mit 3 (drei) 1 cm Bolzen an der Wand anbringen.

3. Nr. 1 mit Nr. 16 auf Nr. 3 anbringen.

4. Teflonband oder Rohrkittmasse auf das Gewinde auftragen. Wasserzufuhrleitungen mit 3 (drei) 1/2" NPT-Rohren verbinden: 2 Zuflußrohre, 1 Abflußrohr mit Nr. 1 verbinden.

Rückseite von Nr. 2

Allgemeine Anleitungen

Installation: B-0474 Wandhalterung

1. Die tatsächlichen Maße bestimmen (Wand bis Vorderseite), Maße im folgenden als Richtlinie benutzen.

2. Nr. 14 über Nr. 2 setzen und mit Nr. 3 und Nr. 15 sichern.

3. 3 (drei) 0,7 cm Löcher in die Wand bohren, Nr. 23 als Vorgabe benutzen.

Nr. 23 so anbringen, daß sie die Zuflußleitungen von der Wand zu Nr. 26 aufnehmen können.

4. Nr. 24 und 25 in Nr. 26 festschrauben.
Falls erforderlich, Nr. 26 justieren, damit das Teil auf das Rohr paßt.

5. Teflonband oder Rohrkittmasse auf das Gewinde auftragen. Wasserleitungen mit 1/2" NPT-Rohren verbinden: 2 Zuflußrohre, 1 Abflußrohr mit Nr. 2 verbinden.

Rückseite von Nr. 2
