

Limited One Year Warranty

T&S warrants to the original purchaser (other than for purposes of resale) that such product is free from defects in material and workmanship for a period of one (1) year from the date of purchase. During this one-year warranty period, if the product is found to be defective, T&S shall, at its options, repair and/or replace it. To obtain warranty service, products must be returned to...

Attn: Warranty Repair Department
2 Saddleback Cove
Travelers Rest, SC 29690*

Shipping, freight, insurance, and other transportation charges of the product to T&S and the return of repaired or replaced product to the purchaser are the responsibility of the purchaser. Repair and/or replacement shall be made within a reasonable time after receipt by T&S of the returned product. This warranty does not cover items which have received secondary finishing or have been altered or modified after purchase, or for defects caused by physical abuse to or misuse of the product, or shipment of the products.

Any express warranty not provided herein, and any remedy for Breach of Contract which might arise, is hereby excluded and disclaimed. Any implied warranties of merchantability or fitness for a particular purpose are limited to one year in duration. Under no circumstances shall T&S be liable for loss of use or any special consequential costs, expenses or damages.

Some states do not allow limitations on how long and implied warranty lasts or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. Specific rights under this warranty and other rights vary from state to state.

15	Pushbutton	000753-25

General Instructions

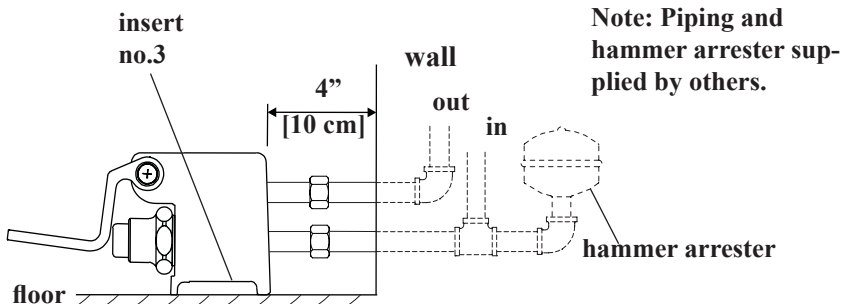

Installation:

1. Shut off water supply and drain lines.
2. Drill (two) holes for $\frac{1}{2}$ " NPT (National Pipe Threads) inlets and (one) $\frac{1}{2}$ " NPT outlets for connections coming from wall. (See drilling dimensions for hole.)

3. Mount assembly to floor with two no.3's, allowing 4" [10 cm] or more from back of unit to wall. Install two (2) inlets (hot and cold sides) and one (1) outlet.
4. Apply teflon tape or pipe joint compound to threads of supply lines. Connect supply lines with $\frac{1}{2}$ " NPT piping.
5. Turn on water and check for leaks.

Note: It is strongly recommended that each supply line be equipped with a hammer arrester installed per manufacturer's instructions. A typical installation is shown:

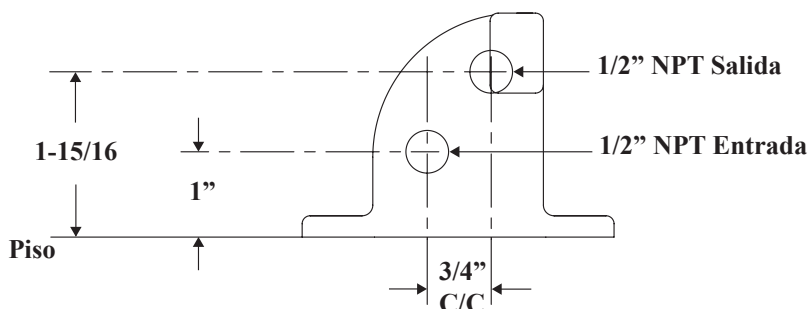

Note: To order replacement parts, order the B-50-P parts kit. (For repair of no.7)

Instrucciones Generales

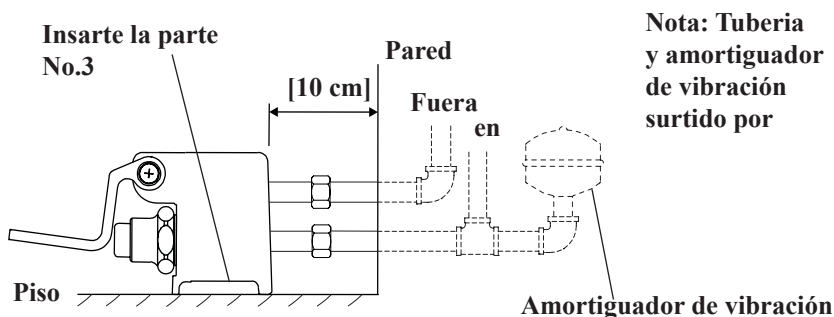

Instalación:

1. Cierre la fuente de agua y desagüe las tuberías.
2. Perfore 2 (dos) huecos para entradas de 1/2" NPT (Rosca Nacional Para Tubería) y 1 (uno) para salida 1/2" NPT para conexiones viniendo de la pared. (Refiérase a las dimensiones de taladrar para el hueco.)

3. Monte el ensamble al piso con dos partes **No.3**, permitiendo 4" [10 cm] o más desde la parte de atrás de la unidad hasta la pared. Instale dos (2) entradas (lados caliente y frío) y una (1) salida.
4. Aplique cinta de Teflon o compuesto de coyuntura alas roscas de la línea de surtido. Conecte las líneas de surtido con tubería de rosca de 1/2" NPT.
5. Abra el agua e inspeccione por filtraciones.

Nota: Es altamente recomendado que cada línea de surtido sea equipada con amortiguador de vibración. Una instalación típica esta demostrada:

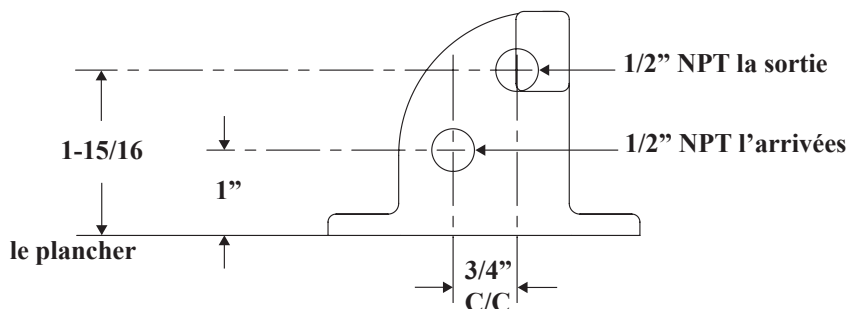

Nota: Ordene el estuche de reparos B-50-P, para reparos. (Para reparar la parte No.7)

Instructions Générales

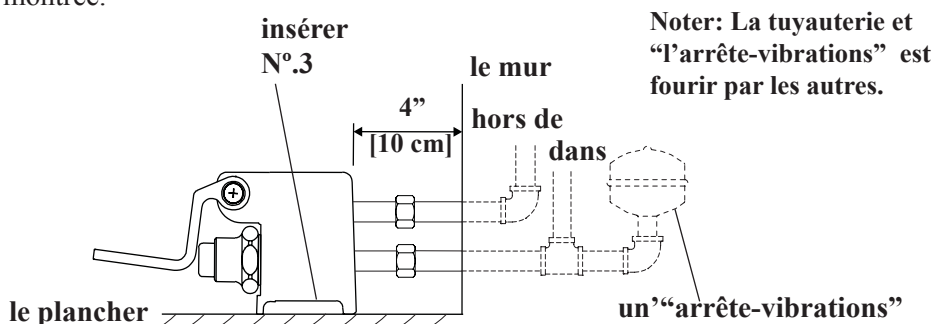

L'Installation:

1. Fermer la réserve de l'eau et égoutter la tuyauterie.
2. Percer (2) deux trous pour une arrivée de 1/2" NPT et une sortie de 1/2" NPT pour les branchements qui venir du mur. (Voir les dessins pour percer pour le trou.)

3. Attacher l'assemblage au plancher avec deux N°.3's, laisser 10 cm ou plus de l'arrière de l'élément au mur. Installer deux (2) arrivées (les côtés chauds et froids les côtés chauds et froids) et une (1) sortie.
4. Appliquer le ruban en Téflon ou le composé pour les tuyaux aux tuyaux qui fournir l'eau avec la tuyauterie NPT.
5. Recommencer l'eau et vérifier s'il y a des fuites.

Noter: On lui recommande vivement que chaque canalisation d'alimentation devrait être équipée d'un "arrête-vibrations". Une installation typique est montrée.

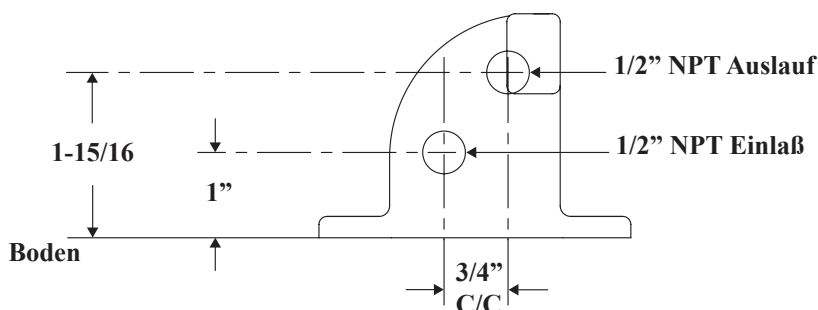

Noter: Pour commander les parties remplacements' commander la trousse à outils B-50. (Pour réparer N°.7)

Allgemeine Anleitungen

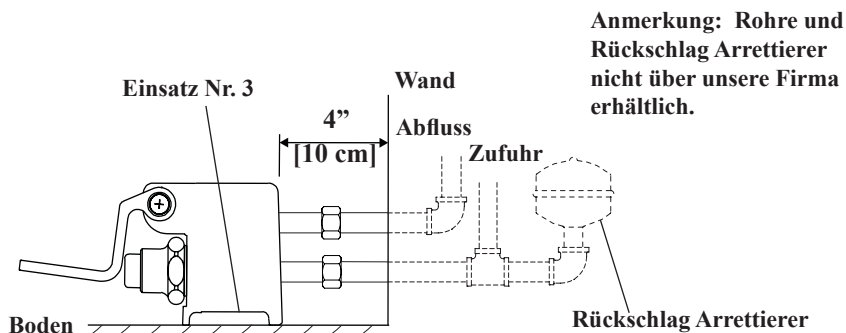

Installation:

1. Wasserzufuhr abstellen und Rohre leerlaufen lassen.
2. Bohren Sie zwei 1/2 Zoll große Löcher für NPT (Nationale Rohr Gewinde) Einlässe und ein 1.3 cm großes Loch für NPT Rohrauslauf für die Verbindungen zur Wand. (für Bohrmaße und Anordnung, siehe Zeichnung unten.)

3. Montieren Sie die Einheit am Boden mit Hilfe von zwei Nr. 3, wobei mindestens 10 cm zwischen der Rückseite der Einheit und der Wand verbleiben müssen. Installieren Sie zwei (2) Zuläufe (heiß und kalt) und einen (1) Abfluss.
4. Teflonband oder Rohrkitt zum Gewinde der Zufuhrleitungen auftragen. Verbinden Sie die Zufuhrleitungen mit 1/2 Zoll NPT Rohren.
5. Wasser andrehen und auf Dichtheit prüfen.

Achtung: Es empfiehlt sich in jeder Wasserleitung einen Rückschlag Arretrierer einzubauen. Typisch erfolgt der Einbau wie abgebildet:

Anmerkung: Rohre und Rückschlag Arretrierer nicht über unsere Firma erhältlich.

Hinweis: Falls Ersatzteile zur Reparatur benötigt werden, bestellen Sie das B-50-P Ersatzteilkit. (Zur Reparatur der Nr.
