

Solids Interceptors

InLine Drain Strainer

Installed on individual sink wastes in kitchen and sanitary applications.

The Endura Inline Drain Strainer (IDS) prevents food debris, hair, lint and similar solid material from entering the drainage system.

Available in ABS and PVC

IGC-225-06

Solids Interceptor

Uses a compact tank and contains a Solids Basket Accessory with dual filtration screens. The basket and screens are both easy to remove and clean. 98%* + Solids capture.

* Internal testing

Solids Basket Accessory

The stand alone Solids Basket Accessory can be fitted directly in to your Endura grease interceptor in place of the inlet baffle enhancing the grease interceptors performance. Compatible with full height interceptors 20gpm to 50gpm.

Plaster Trap

Installed on a wide range of applications, where by gravity, fine material is required to be separated from the waste water flow. This includes materials such as plaster, clay, sand, sediment, grit and general debris. Any material heavier than water can be successfully separated in the Endura Plaster Trap.

Floor Sinks

Constructed of corrosion resistant PVC.

9" or 12" Size models available
