

Connect your equipment and cook smarter.

Unlock the full potential of your CookTek equipment with smart automation, real-time alerts, and actionable insights designed to maximize uptime and efficiency.

Optimize equipment investments for peak operational efficiency

- Address issues quickly with automated service alerts
- Accelerate repairs and reduce downtime with real-time diagnostics
- Automate and digitize temperature logging for HACCP

Embrace the kitchen of tomorrow so you can thrive today.

Connectivity made easy

CookTek units can be pre-provisioned with your wireless network credentials for plug-and-play operation.

Future-proof your investment

Improved diagnostic data will help you prolong peak performance and extend your equipment's life.

Access your kitchen anywhere, anytime

Remotely manage your kitchen in a browser or the mobile app.

Contact your CookTek Sales Representative or Dealer, or scan the code to learn more.
