

CUT-N-CARRY® CUTTING BOARDS

BENEFITS

ALLOWS YOU TO DEDICATE THE USE
OF THESE BOARDS,
PREVENTING CROSS-CONTAMINATION

PATENTED HOOK® DESIGN
FOR SANITARY TRANSPORT AND STORAGE

One of the most common causes of food-related illness is cross-contamination, or the transfer of harmful bacteria from one food product to another.

Using color-coded cutting boards for different food is a way of preventing cross contamination. Cut-N-Carry® Cutting Boards help you keep track of which cutting boards are reserved for which types of food, so that you're less likely to cut lettuce on the same board you cut raw poultry. Cut-N-Carry® Cutting Boards patented hook design promotes sanitary transport of boards. Simply hang to dry and store; avoid unsanitary stacking.
