

STEAMCRAFT™

The Ultimate in High Speed Convection Steamers®

Compartment interior has covered corners for better steam circulation and easy cleaning.

Free-floating inner door makes a positive seal every time, will never leak and isolates the outer door, keeping it cool to touch.

14 gauge stainless steel door and cooking compartment.

4" adjustable legs are standard.

21CET16

Easy-access descaling port... if it's easy to do, it's more likely to get done.

Additional heating element above the waterline dries the steam to reduce condensation on foods and speeds cooking.

Water level control located outside boiler, (where scale forms), preventing scale related control failure.

Power flush system not only drains the boiler automatically when the power is off, but actually flushes the water down the drain to ensure it never plugs with scale.

Electronic timer with load compensating feature automatically adjusts cook time to the load size for consistent results every time.

Manual by-pass switch for constant steaming.
