## **Transport/Delivery Cabinets**

## Aluminum

Model 5529

**Models** 5527, 5529, 5531

# **Durable Storage and Delivery For** 18" x 26" Sheet Pans and Trays

- Protects contents during holding and transporting.
- Durable continuous welded aluminum construction with extra corner gussets.
- Extruded sides will not warp or flex during transport.
- Accomodates 18" x 26" or 14" x 18" pans.
- Non-marking polyurethane casters
- NSF listed.

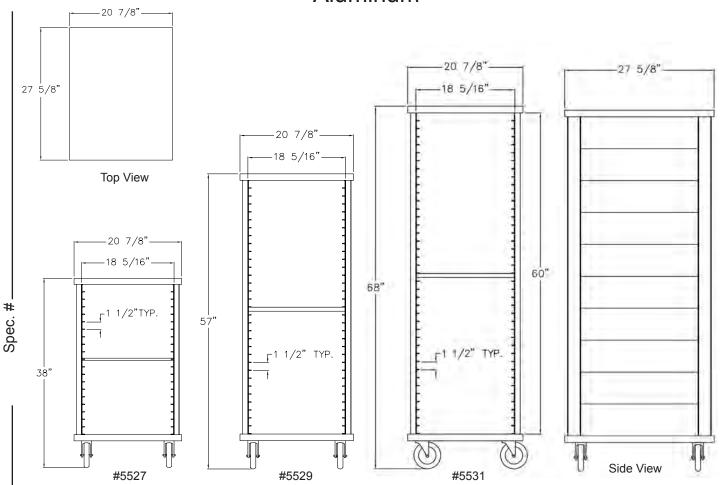

Extruded Channel Type Ledges

### **Specifications**

Shall be heavy duty, high tensile, extruded aluminum. Type 6063-T5 alloy. The upper frame is to be constructed of vertical uprights 1" x 2-½" x 1/8" thick extruded aluminum channels with top cross and side bracing of 1-¼" x 1-¼" x 0.000 wall extruded aluminum tubing, all fully welded together. A solid cap of 0.0630 thick aluminum shall be welded to uprights and cross bracing. Compound guides shall be interlocking solid wall type, extruded aluminum panels. Each panel shall have guides spaced 1-½" on center, with ½" ledges and 0.000 wall thickness. The guides shall be welded to the vertical uprights. Rear panel shall be 0.000 thick aluminum panel with a corrugation on each side for strength and enhanced air circulation. Panel shall be welded to the top, bottom, and rear vertical uprights. Door shall consist of 1/8" thick aluminum panel with a corrugation on each side. The door shall be supported by three stainless steel hinges designed to provide 0.000 door swing. A positive gravity catch shall be provided to retain door in a closed position. A universal card holder shall be bolted to the upper front of the door. Bottom frame shall be constructed of 0.000 thick aluminum sheet with four sides bent down 0.000 the door. Bottom frame shall be constructed of 0.000 thick aluminum sheet with four sides bent down 0.000 the door. Bottom frame shall be constructed of 0.000 thick aluminum sheet for extra rigidity. Caster plates 0.000 thick pre-tapped) shall be welded to bottom of frame. Casters shall be platform type 0.000 diameter, all swivel, with sealed bearing axle and non-marking wheels. Unit shall be NSF Listed.

#### **Dimensions**

|         | Sheet Pan Capacity |           | Ledge   | Overall Size |         |           | Case Wt.  |
|---------|--------------------|-----------|---------|--------------|---------|-----------|-----------|
| Model   | Full Size          | Half Size | Spacing | W            | L       | Н         | Lbs.      |
| 5527 18 | 36                 | 1½"       | 21 7/8" | 27 5/8"      | 38"     | 72        |           |
|         |                    | (38)      | (530    | 702          | 965)    | (32.4 kg) |           |
| 5529 22 | 44                 | 1½"       | 21 7/8" | 27 5/8"      | 56"     | 106       |           |
|         |                    | (38)      | (530    | 702          | 1422)   | (47.7 kg) |           |
| 5531    | 00                 | 26 52     | 1½"     | 21 7/8"      | 27 5/8" | 68"       | 113       |
|         | 20                 |           | (38)    | (530         | 702     | 1727)     | (50.9 kg) |

Measurements in ( ) denote metric millimeters, unless otherwise specified.

#### **Options**

- □ Clear polycorbonate door
- □ Push handle
- □ Bottom corner bumpers
- ☐ Brake casters (set of 2)
- □ Full perimeter bumper
