Specifications

Description

Adcraft's stainless steel cheesemelters are perfect for quickly melting cheese, toasting nachos or sandwiches and finishing. Their small footprint and compact design make them perfect for kitchens with limited space. These units use a metal sheath heating element that will quickly warm, toast and melt to perfection. The body is insulated to prevent heat from escaping the melting chamber. The infinite switch gives you precise control over the amount of heat given off. It's multi-position food rack allows you to set the food at the perfect distance away from the heat source. A 15 minute timer is standard on the CHM-1200W model. These units are CE Certified and backed by Adcraft's 1 year warranty.

Construction

- Heavy duty stainless steel construction
- Metal sheath heating element heats up quickly and distributes the heat evenly down towards the food
- Insulated body to prevent heat loss inside the melting chamber
- Built in 4 slot multi-position racking system allows for the perfect distance away from the heat source for all types of food
- Removable food grid with 6" cool-to-touch bakelite handles
- Removable stainless steel crumb tray for easy cleaning
- Non-slip rubber feet for stability

Operation

- Infinite control dial allows you to precisely control how long the heating period lasts
- 15 minute timer comes standard on the CHM-1200W model
- Indicator light lets you know when element is heating

Electrical

- CHM-1200W is 120V and has a NEMA 5-15 plug
- CHM-2400W and CHM-4350W are 240V and have a NEMA 6-20 plug
- 4' long power cord standard on all models
