

CARBON STEEL 101

Blades made with carbon steel hold a sharp, long-lasting edge. Blades may darken with age and use, thus creating a protective patina. If blade rusts, use an abrasive cleanser or lightly scrub with steel wool and periodically coat with mineral oil. Keep blades clean, dry, and oil for long storage.

Curved 1 1/8" Notch Rubber Knife

4" x 1" 60300 141N

High Carbon Steel
Rounded Hardwood Handle with Pin
