

Non-Caustic Oven Cleaner

Formulated as a high-strength cleaner for the removal of grease and heavy soils, Alto-Shaam's non-caustic cleaner significantly reduces labor costs and extends equipment lifetime. The spray on foaming cleaner eliminates the need for labor-intensive scrubbing. Simply spray and wait while the cleaner does the work. Finish the job by washing cleaner, grease and other cooking debris away with water.

Product Details

- Removes heavy soils and cooking debris including fats, oils, and carbonized particles that build up from baking, roasting, or cooking in commercial ovens
- Approved for use on all Alto-Shaam products
- Safe for use on products that use a catalyst for ventless cooking, including Vector® H Series Multi-Cook Ovens
- Made in the USA
- Reference the oven specific operator's manual for step-by-step cleaning instructions
- Saves time and labor associated with regular oven cleaning
- Non-caustic formula eliminates caustic fumes and is safe to use for employees
- Safe for use on aluminum products
- Can be used as an all-purpose kitchen cleaner
