The Camrack® Warewashing System

Camracks have been circulating in hotels, restaurants and catering operations around the world for well over ten years, saving time, money and resources. Operators concerned with their customers' safety know that Camracks will keep their glassware and dinnerware clean and safe. With a wide variety of compartment options and plate configurations, the complete Camrack system provides a fully enclosed, portable sanitary storage unit. Completely eliminate the need to rewash glassware or dinnerware or to purchase wasteful plastic wrap again. Operators will lower replacement costs and reduce labor, water and cleaning solution expenses. Camracks offer an economical and environmentally-friendly option that provide a simplified and efficient workflow.

The Camrack System is composed of three key components that combine to create a fully enclosed, portable unit.

1

2

3

Fully enclosed design eliminates the need to rewash glassware.

StoreSafe HACCP NSF

1 Camrack Cover

Sealing from the top, the cover protects the contents of the Camrack unit from breakage and contamination.

2 Camracks

Various compartment size glass racks will protect your glassware investment from washing to set-up. Camracks are easy to handle and stack, providing easier storage while maintaining a sealed, hygienic environment.

3 Camrack Camdolly

The entire unit sits on an enclosed dolly creating a hygienic, portable system.

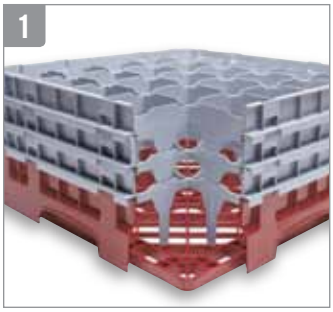
Camrack® 4-in-1 Warewashing System

The Camrack® System will protect glassware and keep it clean until the next event, eliminating the need for rewashing.

Camrack Cover Seals from the Top and Camdolly® Seals from the Bottom

Camracks interstack with racks from major manufacturers.

Efficient Washing



Open inside compartments provide thorough circulation of water and cleaning solutions and promote quick and thorough drying.

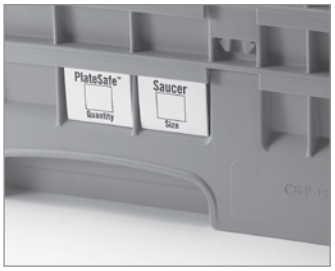
Long-lasting polypropylene Camracks are built to withstand chemicals and high temperatures up to 200˚F (93˚C).

Sanitary Storage

Closed outer walls keep fingers and contaminants out and reduce risk of breakage and injury. The Camrack cover and Camdolly make this system completely enclosed. Glassware stays clean when in storage, so operators will only have to wash items once.

Inventory Control

A variety of base rack colors help identify at a glance both contents and quantity per rack. Available in 10 colors.



Content labeling options include one-color custom hot stamping or pre-printed clips that are added at factory during assembly.

Safe, Sanitary Transportation

Camracks can be transported across large campuses or to off-site locations in one single unit.

Easy to grip handles and smooth overlapping sides facilitate safe handling.

StoreSafe HACCP NSF

Camracks are covered by one or more of the following patents: Full Base Dish Rack D412,607. Half Base Dish Rack D404,176. Half Dish Rack Extender D400,321. Enlarged Dish Rack Extender D399,614. Dish Rack with Extender 5,934,486 Utility Patent. Pronged Base Dish Rack D403,472

Camrack® Accessories

Create a complete Camrack system that is efficient, portable and self-contained using Camrack accessories.

Camdolly®

CDR2020

Ease employee lifting and carrying, reducing possible injury and breakage by placing stacked Camracks on an enclosed Camdolly. Heavy-duty casters maneuver easily over all types of terrain. Made of extremely durable plastic that will not dent, crack, rust or corrode.

Camrack Cover

DRC2020

Keep contaminants out and glassware and dinnerware clean by sealing the Camrack system at the top with a Camrack Cover. This cover fits any full size compartment rack height and when used with a Camdolly, creates a portable sanitary storage system.

IceExpress Glass Filler

25SWGF

Dramatically reduce banquet set-up time by filling 25 glasses with ice all at once. By placing the IceExpress on a 25 compartment Camrack, employees can pour ice directly into the glass, reducing breakage and risk of cross-contamination.

Complete Camrack® Line

Camrack Full Size and Half Size Glass Racks

From washing and handling to stacking, storing and transporting, these racks offer complete protection for all types of delicate and valuable stemware and tumblers. Half size Camracks are very effective for carrying less weight and for conveniently storing drinkware in space-restricted locations.

Camrack Full and Half Size Cup Racks

Camrack Cup Racks have a unique tilt feature that drains all water from cup and coffee mug bases, ensuring quick and sanitary drying.

Camrack Full and Half Size PlateSafe® Racks

Effectively store and transport dinnerware with PlateSafe Camracks. The vinyl coated steel grids safely hold and separate plates within each rack, holding items upright and securely in place. Eliminates the need to transfer to a dish caddy, reducing labor and breakage.

Camrack Full Size and Half Size Base Racks

Ideal for pots, pans, bowls and large prep service items, these base racks are available in standard size or with 1, 2 or 3 additional extenders.

Camrack Full Size Peg Racks and Tray Rack

The peg rack design allows the user to wash various size plates, bowls, trays, plate covers and other items. Standard peg racks are available in a 9 x 9 or a 5 x 9 configuration. Open end tray racks hold up to nine cafeteria trays or full-size sheet pans with easy placement and removal of any length tray.

Camrack Full Size and Half Size Flatware Racks and Cylinders

Use flatware Camracks and baskets to wash, soak and store flatware. Cylinders fit into 8-compartment half size Camracks and go from dishwasher to self-serve display. The full size flatware rack interstacks with all other racks and fits through any commercial dishwasher.

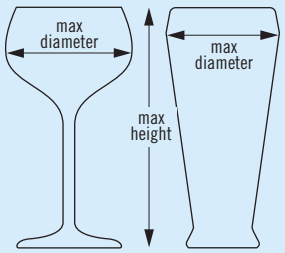
Camrack® Full Size Glass Racks

Available in 7 compartment sizes and up to 12 different heights, there is a Camrack that will fit any type of stemware or tumbler.

Choose the correct Camrack:



1. Measure the **maximum diameter** of the glass (stemware or tumbler) to determine the number of compartments.
2. Measure the **maximum height** of the glass (stemware or tumbler) to the top edge of the rim to determine the compartment height.

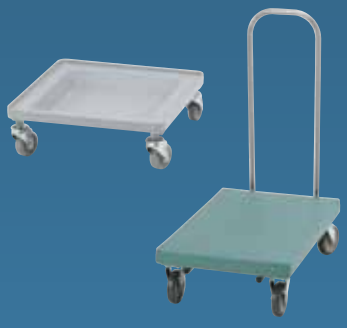
Complete Camrack® Warewashing Line

Cambro offers a complete line of products to increase warewashing efficiency in any operation. For more information on these and other products, please visit **www.cambro.com.**

Bus Boxes

Perfect for bussing, storing or transporting items. Covers are available for bus boxes so that contents are sealed tightly.

Camdollies® and Utility Trucks



Use Camdollies to transport sheet pans, trays, glass racks, catering equipment and pizza dough boxes. For heavier transport needs, Utility Trucks have large platforms and heavy-duty casters bolted into molded-in metal backing plates.

Glass and Cup Keepers

Ideal for organizing and storing glasses and cups in wait stations or for customer self-service. These organizers offer raised ribs for easy draining and drying.

Tray and Dish Cart Tray and Silver Cart

Neatly organize trays and accessories for self-service. Open storage compartment holds a wide variety of plates and trays and rounded, molded-in corners protect furniture and walls. Carts come with a vinyl cover to protect contents when in transport or storage.

KD Service and KD Utility Cart

Versatile, durable and economically priced carts ship "knocked down" to minimize shipping costs. Carts are easy to assemble and easy to clean.

Poker Chip Style Dish Caddies

Secure, high-capacity storage to protect round plates. Caddies offer open access from two sides for easy loading and unloading.
