

DUALI-3500FB

208- to 240-volt 3500-watt front-to-back dual countertop induction range with temperature control probe and programs

Vollrath's front-to-back dual-hob induction range with InductIQ™ technology is a powerful complement to any commercial kitchen space. Smart, fast and Energy Star certified, it delivers steady, precise heat while reducing energy costs. A newly designed control knob with digital display makes it easy to do everything from fast boiling to warming, with customizable programs that remove the guesswork and a temperature control probe that allows for automatic heat adjustments. Expand your current capabilities with a 3500-watt-per-hob powerhouse that cooks like gas, only better.
