VOLLRATH

VBBC2A-37-A

Refrigerated beverage dispenser with two 2.11-gallon bowls and agitator circulation

Serve up something cold, crisp and satisfying with the Vollrath® refrigerated beverage dispenser. The clear bowls keep your product on display, allowing it to catch your customer's eye. Each bowl has its own thermostat that easily holds your pre-mixed cold beverage at a perfect serving temperature, while the agitator circulates the product to ensure exceptional consistency and quality. With a stainless steel drip-free spigot and a plastic drip tray to contain liquid in the case of accidental spills, your counters will always stay clean. The durable stainless steel cabinet and food-grade bowls promise years of reliable service, and the easily-removed bowls and dispensing handles allow for quick clean up
