Safety/Anti-fatigue Matting

Available Colors: Red, Black

Superflow® is a lightweight anti-fatigue mat with molded-in beveled edges for a more workstation oriented environment. Available in general purpose (black) and heavy-duty (red) rubber compounds for varying degrees of grease and oil protection, Superflow® is reversible further extending the life of the mat. Its' lightweight design makes it a perfect choice for applications where the mat is routinely moved for cleaning. A drainage system facilitates the removal of liquids and debris from the work area and the molded-in beveled edges reduce trip hazards and allow for easy access onto and off of the mat. Superflow® has an aggressive textured top surface that provides additional traction in wet or greasy areas.

Outdoor Use

Application Requirements:

Flexible configurations, some exposure to grease, oils & water, drainage and comfort, beveled edges for cart traffic, easy handling

- Available in general purpose (black) and heavy-duty (red) rubber compounds for varying degrees of grease and oil protection
- Reversible for extended life
- Molded-in beveled edges to reduce trip hazards and allow for cart traffic
- Lightweight for easy handling and cleaning
- Drainage system removes liquid and debris from worker platform
- Overall thickness: 5/8"
- Stock Sizes: 3' x 5', 4' x 6'
