T23 Multi-Mat II® Safety/Anti-fatigue Matting

Available Colors: Red, Brown, Black

Multi-Mat II® is a reversible drainage mat that offers anti-slip traction in wet or greasy areas. Made from general purpose (black), standard (brown), and heavy-duty (red) rubber compounds for varying degrees of grease and oil protection, Multi-Mat II® is available in sheet sizes or rolls for longer length application requirements. Its reversible construction design adds to the service life of the mat and a drainage system removes liquids from the work area. A low profile allows for easy cart access.
