Description

Multi-Mat II™ is a reversible drainage mat that offers anti-slip traction in wet or greasy areas. Made from general purpose (Black) and heavy-duty nitrile (Red) rubber compounds for varying degrees of grease and oil protection, Multi-Mat II™ is available in sheet sizes or rolls for longer length application requirements. Its reversible construction design adds to the service life of the mat and a drainage system removes liquids from the work area. A low profile allows for easy cart access.
