

INTRODUCING...

CORE SERIES

Reliable and Accessible to its Core

Introducing Vulcan's Core Series — a curated collection of equipment that delivers the durability you expect from Vulcan, now with an emphasis on affordability. Designed for light-to-medium-duty operations, Core Series equipment provides the reliable cooking performance operators need to achieve culinary success.

The Core Series portfolio combines trusted Vulcan models with exciting new favorites, including **convection ovens, ranges, fryers, griddles, charbroilers, hot plates, stock pots**, **and cheesemelters** — everything needed to efficiently outfit your back-of-house operation.

With both gas and electric models, ENERGY STAR® certified options, and an accessible price point, Vulcan's Core Series makes it easy to build a capable kitchen without stretching resources.

BUDGET FRIENDLY

Designed with value in mind—no more sacrificing quality, even when budgets are tight.

BUILT FOR EVERYDAY OPERATIONS

Simplicity, strength, and value for everyday use in light-to-medium-duty operations.

DEPENDABLE SUPPORT

Backed by a 1-year parts and labor warranty, with support from Hobart Service and a trusted network of authorized service providers.

CORE SERIES LINE-UP

Vulcan's Core Series delivers the essential equipment kitchens rely on to create exceptional dishes at an exceptional value, combining dependable performance with lasting durability.
