Who Should Serve on cheforward™?

Nearly any food service operation can benefit from cheforward™ and it's stunning artisanal handmade stoneware style and the cost savings from using long-lasting melamine:

- Patio, outdoor and rooftop dining
- Casual and fast casual restaurants
- Hotel Dining

Who Should NOT Serve on cheforward™?

Like all melamine, cheforward™ has a few areas where porcelain naturally performs better. In these cases, we recommend using either a mix of porcelain and melamine or porcelain only.

- Plated entrées requiring a steak knife
- Plated entrées requiring oven or salamander finishing
- As always, melamine should not be microwaved

See the Corona Moon, Pluto, Elegance and Gotas collections for excellent alternatives in porcelain.
