

# BLACKLINE

**CARBON STEEL PROFESSIONAL COOKWARE THAT PERFORMS  
LIKE CAST-IRON BUT IS STRONGER & LIGHTER**

Induction | Gas | Electric | Oven

- Carbon steel resists warping and is easy to season to create a non-stick, non-toxic surface
- Superior heat retention, heats up and cools down faster than cast iron
- Carbon steel is nearly indestructible, more resistant to breaking or cracking & won't discolor on open flame
- Strong weld-mounted cast handle - instead of rivets which can harbor bacteria
- Naturally nonstick once seasoned, perfect for sauteing and searing & safe with induction, oven, broiler, electric, or gas
- Lifetime warranty covering welds, non-maintenance items, or manufacturer defects
