

Induction DOT Round Hold-only, Reconfigurable Induction Range

Versatile range with three available configurations

- Use as countertop induction by pairing with the Wynwood induction stand (sold separately)
- Build into your countertop with either drop-in or flush-mount installation
- With just 1.18" (3cm) clearance needed between units, easily fit four (4) Induction DOT ranges into/on standard 60" table or countertop

Compact & Designed for Performance

- Only 9.1" in diameter, the Induction DOT takes up minimal countertop space
- Daisy-chain up to 4 units on a single 15-amp circuit
- Removable control box with touch controls & indicator lights

Industry-leading Induction Technology

- Automatic pan recovery seamlessly adjusts and recognizes vessels without losing connection as they lift from the surface
- Four position temperature control for precise & efficient food holding/ warming
- Exclusive SmartScan® technology with over/under voltage protection and vessel size/ type recognition protects from warping or food from burning

INDUCTION
