Serial Number (S/N) Explained

The serial number of your unit is listed on the rating plate.

Example: IN 01 . 00014 . 1213

NOTE: non-RTCS / RTCS / RTCSmp models

- A non-RTCS/RTCSmp unit has a 4-Digit Sequence Number.
- A RTCS or RTCSmp unit has a 5-Digit Sequence Number.
- A RTCSmp unit is indicated as such on the Rating Plate.

Notice

Use Wok Pans with Correct Contour

Garland recommends that the wok pans used be the correct contour to the Ceran glass bowl (Built-In and Module-Line Models). To reduce premature failures such as overheating, wok pans should not touch the glass but only sit onto the upper flange.

To guarantee the correct contour, Garland offers a selection of induction wok pans. Please consult your dealer for details.
