

# hotLOGIX<sup>®</sup>

OUR BRAND INNOVATION  
DELIVERING YOUR BRANDS PERFORMANCE

hotLogix offers 3 key hot holding solution sets, catering to all of your needs. From simple non-insulated hot holding to robust insulated stainless steel construction and precise humidity control, we have the perfect cabinet for you.

EXTREME  
RELIABILITY

ELEVATE  
EFFICIENCY

PRESERVE  
FLAVOR

## Market Entry

MODELS: HL1, HL2, HL3, HL4

Designed for those who value reliability and durability, our solutions provide essential holding capabilities without unnecessary extras—delivering extreme performance and low maintenance at a budget-friendly price.

## Performance

MODELS: HL5, HL6, HL7, HL8, HL9

Engineered for fast-paced kitchens, our versatile holding solutions deliver upgraded performance, unparalleled construction, and tailored control options—streamlining workflows for a lifetime of ownership through industry leading durability.

## Best in Class

VaporPro™

For kitchens that demand the highest performance, our hotLogix VaporPro combines advanced technology, top-tier performance, and high precise humidity control that ensures exceptional food quality, operational excellence and unmatched reliability—backed by a superior warranty and support.

## Market Entry

MODELS: HL1, HL2, HL3, HL4

### Fixed Wire Universal Slides:

Standard fixed wire slides with optional adjustable universal or fixed angle slides for added flexibility

### All-Aluminum Construction:

Durable and lightweight design built to last

### Bottom-Mounted, Replaceable Heater:

Features analog controls for reliable performance and easy maintenance

### Field Reversible, Single Pane, Tempered Glass Door:

Stays clear and scratch-free over time, with an optional aluminum door and field-reversible design for any layout

### Back Wall Ducting:

Ensures even heating across all levels, surpassing traditional fan designs

### Spot Welding Construction:

Eliminates air leaks with precise spot welding, providing superior insulation compared to cabinets with small gaps

KEY DIFFERENCES

- 
**Adjustable Universal Slides:**  
Standard adjustable slides with optional fixed angle slides for flexibility
- 
**Insulated Construction:**  
Ensures consistent performance and energy efficiency
- 
**Top-Mounted Heaters with Water Pan:**  
Faster recovery with elements sitting in the water, easy to remove for cleaning, and prevents food spills from flavoring the water
- 
**Field Reversible Glass Door:**  
Field-reversible design adapts to any layout, with an optional tempered glass door that stays clear and resists clouding
- 
**Back Wall Ducting:**  
Ensures even heating across all levels, surpassing traditional fan designs
- 
**Spot Welding Construction:**  
Eliminates air leaks with precise spot welding, providing superior insulation compared to cabinets with small gaps

\* The HL6 and HL9 models include a top-mounted water pan, 90% humidity capability at high temperatures, and a low water level sensor with an indicator.

## Best in Class VaporPro™

- 
**User-Friendly Features:**  
Digital controls, adjustable universal slides (optional fixed angle slides), and a field-reversible door for versatile use
- 
**Insulated, Stainless Steel Construction:**  
Constructed with stainless steel, fully insulated, and backed by a 3-year warranty
- 
**Top-Mounted Heaters with Water Pan:**  
Ensures faster recovery with elements sitting in water, is easily removable for cleaning, and includes an auto-fill system standard (optional for competitors)
- 
**Precise Humidity Control:**  
Features a humidity probe for exact adjustments, rapid recovery, and a low water sensor with indicator for convenience
- 
**High-Performance Humidity:**  
Achieves up to 90% humidity at high temperatures for superior holding capabilities
