Notes:
1. Computed on cubic volume of bin. Does not reflect cart capacity or voids that can occur due to pyramiding.
2. Each cart holds 240 lb (109 kg) without optional Totes ice carriers, 150 lb (68 kg) with Totes ice carriers.
3. Add 8.00" (20.32 cm) to depth (D) for lower door assembly (easily removed for installation access).
4. Special top required for ice machines weighing more than 1000 lb (454 kg). Add 2.12" (5.38 cm) to height. Contact factory.
5. Required clearance for installation access through doors (may require removal of door assembly).
6. Follett recommends installation of a floor drain with grate with all ice storage bins. Consider cart positioning when locating the drain. Clearance required to pull cart from below bin — minimum 42.00" (106.7 cm), optimal 56.00" (142.2 cm).
