

HOBART HS SERIES HEAVY-DUTY SLICERS

Precision and performance that help you create amazing food.

HOBART

HOBART HS SERIES HEAVY-DUTY SLICERS

Consistent and precision
slicing—every single time.

Hobart HS Series slicers make light work of your heaviest-duty meat, cheese or vegetable slicing tasks. They're loaded with exclusive features that add convenience and simplicity to your day—giving you more time to create amazing food. Combine them with the trusted performance and long life of a Hobart product, and you'll save money year after year.

Top-mounted Borazon® sharpening system ⭐💧📏!👉

Single action sharpens and hones in 15 seconds, and it's dishwasher safe.

13" CleanCut™ knife with cobalt edge ⭐📏

Stainless-steel, cobalt-edged knife stays sharp longer and lasts 2 – 3x longer than carbon-steel knives on the market.

Zero knife exposure !⭐

Operator is protected while sharpening and cleaning.

Gauge plate interlock (GPI) !

Gauge plate must be closed and product tray in home position before the carriage arm can be removed.

Sanitary one-piece base 💧

One-piece design has fewer crevices where bacteria may grow—available in burnished or anodized finish.

30-second shut-off !

Slicer automatically shuts off after 30 seconds of non-use.

Variable-speed automatic product carriage 📏👉

Four stroke speeds and three stroke lengths handle a wide variety of products.

Lift assist 💧👉

Makes it easy to clean underneath the slicer, saving time.

Magnetically secured knife cover !👉

No loose or moving parts make operation easier.

Patented removable ring guard cover ⭐💧!

Prevents debris buildup and provides extra protection for the operator.

Removable meat grip assembly 💧👉

Opens for unobstructed loading and removes for easy cleaning.

Close to stop !

Slicer turns off when gauge plate is closed.

Patented removable knife ⭐💧!

Removes easily and cleans in sink or dishwasher.

Exclusive tilting, removable carriage ⭐💧👉

Makes it easy to keep slicer clean and sanitary.

1/2 H.P. knife drive motor 📏

The industry-leading power you need to slice cheese and meat with no shredding.

Home to start !

Slicer won't turn on until the carriage is in home position.

No volt release (NVR) !

Ensures slicer will not automatically turn back on if power is lost.
