

GOOD

centerline
by HOBART

LOW-VOLUME OPERATIONS

Perfect for operations where **lighter food soils are dominant**, and cycles are moderate, or run intermittently.

Centerline™ users typically:

- Want durability that is affordable
- Want simple operation & training
- Have clean-up area space constraints
- Desire reliable sanitation & labor efficiencies

BETTER

HOBART LXn (base)

HIGH-VOLUME OPERATIONS

Perfect for operations where **tough food soils are dominant**, and cycles are continual or back-to-back.

LXnH/LXnC users typically:

- Value operational efficiency
- Desire warewashing versatility
- Want drying performance (high temp)
- Need wash performance that removes lipstick from glasses (high temp)
- Have clean-up area space constraints

BEST

HOBART advansys™ LXnR

HIGH-VOLUME OPERATIONS

Perfect for operations where **advanced features are desired**, **tough food soils are dominant**, and cycles are continual or back-to-back.

Advansys™ LXnR users typically:

- Desire steam removal
- Value low water, energy & chemical use
- Require cycle options
- Demand quality wash performance
- Have higher customer & employee experience standards
