COMMERCIAL DISHWASHERS

COMPLETE DELIME™

with Auto Delime, Auto Dispensing & Booster Guard™

Auto Delime combines water hardness & cycle counts to let operators know when it's the right time to delime.

Auto Dispensing automatically doses delimer into the machine.

Booster guard delimes the booster.

Simplify Deliming to Reduce Labor Time & Cost & Increase Safety

Auto Delime combines water hardness & cycle counts to let operators know when it's the right time to delime, saving time & chemicals while maintaining peak machine performance.

Auto Dispensing automatically doses delimer into the machine, preventing excessive dosing while reducing the handling of chemicals, making it safer for operators.

Booster Guard injects delimer directly into the booster, preserving machine life & helping to prevent premature booster failure.

Experience Real Labor Savings & Increased Safety for Your Operations*

SAVE UP TO 30 MINUTES EACH TIME YOU DELIME

50%+ REDUCTION IN DELIME CYCLES

UP TO $250 ANNUAL COST SAVINGS

ELIMINATE MANUAL POURING

*Annual savings using Hobart delime notification algorithm compared to deliming once per week.
