

Speakeasy

Inspired by vintage Libbey stemware.

The Vintage trend evokes images of the roaring 20s, a time of glamorous movie stars and notorious gangsters who made fortunes during Prohibition. Smoke-filled back rooms, gangsters in fedora hats, and skilled barmen creating legendary cocktails with one eye on the door. Speakeasy glassware looks like it's been lifted from a 1920s speakeasy: polished as a chalk stripe suit, stylish as a jazz solo and tough as they come.
