LINEAR COLOR

LINEAR COLOR

Elevate every beverage presentation with a triple threat of texture, brilliance and color. Linear Color features fine lines that enhance light refraction, resulting in a unique display of optics across the surface of a table or bar, as well as a transparent finish that adds a pop of color without hiding your creative mixology. The vertical lines and stems help differentiate your cocktails, delighting guests and allowing the drinks to shine.

FEATURES & BENEFITS

- Unique stemware with transparent colored bowls differentiates your brand
- Stunning facets of glass refract light for a sensational cocktail presentation
- Vertical lines create a three-dimensional pleated effect
- Four sizes and two colors provide the bartender with options to create the perfect cocktail
- Safedge® Rim lifetime guarantee
- Durable and dishwasher-safe
