

Master's Acura

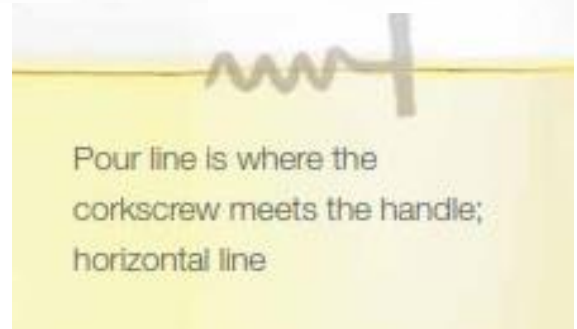

Innovative visual cues to improve profitability.

With the premiumization of wine and increasing margin pressure, this is the perfect time to take action and control your beverage cost. Drive profitability and experience peace-of-mind utilizing innovative corkscrew visual cues to deliver the right pour.

Features and Benefits:

- Control cost and drive profitability with visual glassware design showing proper pour amounts
- Prism and Renaissance, each available in 5 oz. /8 oz. (corkscrew points right) and 6 oz./9 oz. (corkscrew points left)
- Pour to where the corkscrew connects to the handle
- Over-pour costs really add up. 1/8" over-pour x 200 glasses per night = 5 bottles per night "down the drain". At \$.35/ounce, this is \$17,000 per year.
- Simply choose Renaissance or Prism, then choose the SKU that fits your pour and let the savings begin
- Customize with your logo for 24 dozen minimum order

Pour line is where the corkscrew meets the handle; horizontal line

Capacities are approximate.
