for the user

Built-to-last

Specifications

Professional performance

Versatility without add-on tools

As hand blender

Ideal for achieving the most subtle and delicate blending: airy consistencies, smooth purées, etc.

The blade, the blade protector and the range of speeds available make it ideal for achieving anything from the most demanding blending to more delicate and airy emulsions, all in a fast and comfortable way and without the need for add-on tools.

As whisk

The whisk is ideal for whipping cream, preparing meringues, chantilly, mayonnaise, Genovese sauce, omelettes, crêpes, soufflés, etc. all in a fast and comfortable way and without the need for add-on tools.

Professional performance

Hand blender

Y-Blade

The Y-Blade, professional and with **three very sharp blades of tempered steel** with a long-duration cutting edge, has inclinations which have been studied in order to achieve a perfect result with each elaboration. Thanks to the three blades, **less time and less motor effort is required** to obtain the desired texture.

Vario speed

All of the hand mixer & blender combo machines, all of the whisks and the XS and S hand blenders have variable speed.

Models for all types of productions

As hand blender

The XM range is geared towards working with maximum comfort in containers ranging from 10.6 qt. to 264 qt. in capacity.

As whisk

The beaters from the XM range are designed to work in containers ranging from 32 qt. to 85 qt. in capacity. They are able to beat up to 80 egg whites.

Optional arm

All of the XM models can be used with more than one mixer arm in different sizes, making the machine more versatile. Also, the S, M and L ranges can also be used with a whisk.

Enhanced UX

Maximum comfort for the user

Logical and manageable size

All of the XM models are designed to be easy to handle for the user. They therefore have a logical size within their range.

Ergo-design & bi-mat-grip

The external casing, made in two materials, allows an ergonomic hold with an anti-slip grip and the handle features optimum inclination in order to minimise fatigue.

Click-on-arm

The arm is **detachable** with quick fastening due to the safety restraint system and the “click” which indicates the locked position.

Hand blender

Hood designed to avoid splashes

The careful design of the hood **avoids splashes** during work.

Intuitive use

The XM range showcases extremely simple and intuitive handling with light indicators to show whether the machine is connected to the mains.

Built-to-last

Durability guarantee

Professional performance

Robustly constructed, all models from the XM range are manufactured with materials of the highest quality and offer maximum motor power in a compact size. They are capable of carrying out prolonged work without the casing overheating.

Life-plus

The XM models are equipped with a motor which has passed all of the most demanding usage tests.

Studied geometry

The exterior shape of the casing is **designed to avoid it rolling and falling** from the work surface.

Easy to clean

Thanks to the ease of assembly and disassembly of the arm, cleaning it is extremely easy and can be done under the tap.

Moreover, the arm of XM-12 can be washed in the dishwasher.

Approved by NSF

All the models are standard 8 NSF certified, which is a hygiene and safety guarantee.
