STORE GRID MOUNTED SYSTEM

DESIGN: A versatile storage, utility and display system suited to maximize efficiencies of underutilized spaces and empty walls. Store Grid has a sophisticated system that integrates wall tracks, grids, wall shelving and accessories in limitless custom configurations. Ideal to use around and above sinks, prep-stations, work tables, staging areas and equipment in order to keep these areas cleaner and more organized.

CONSTRUCTION: Cold rolled steel, gauge varies per item.

FINISH:

Green Epoxy: *is an ideal solution for dry, wet and damp applications. The carbon steel is treated with an iron phosphate and the powder coated epoxy is electrostatically applied, baked and cured to a hard surface. 15 year limited warranty for antimicrobial finish to not rust or corrode.*

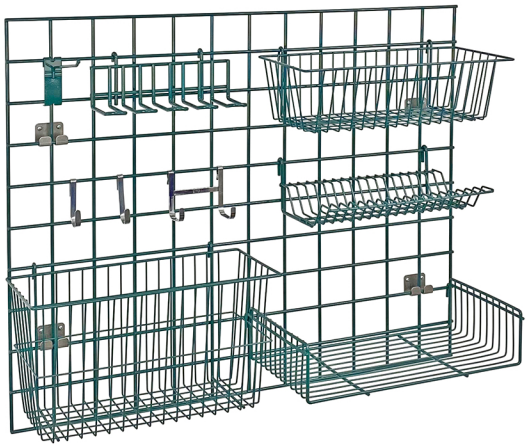

QUICK, EASY ASSEMBLY: Attach wall tracks to a proper mounting structure *(wood studs, plywood, concrete, etc.)*. Hang uprights or grid brackets from wall track and secure them to the wall. Lastly, configure the task station or wall shelving to meet your needs.

ADJUSTABLE: Uprights are slotted every 1-1/2" allowing shelves and grids to adjust vertically. Grids have a 3" x 3" opening that enables accessories to adjust vertically or horizontally at any given time.

CLEANABLILITY: Shelves, shelves brackets, grids and accessories may be removed for in-depth cleaning of walls. Wall tracks and uprights can be wiped clean. Note: Do not use abrasive materials since these may damage the protective coating. Clean with mild detergents and damp cloths.

NSF APPROVED: Antimicrobial additive protects the epoxy from bacteria, mold and mildew, that causes stains, odors and product degradation.

Product Notes:

- ❒ When configuring task stations with uprights, select shelves and grids of the same length. Longer grids may be used,although must not overhang the upright by more than 6" on either side.
- ❒ Grids may be mounted behind shelves. However, shelf support and grid cannot use the same slots on the upright.
- ❒ Maximum usable wall track mounting space is the track length minus 2" *(stop fasteners are installed at each end of a run of wall track and occupy around 1" of track space on each end)*

STORE GRID MOUNTED SYSTEM

WALL TRACKS

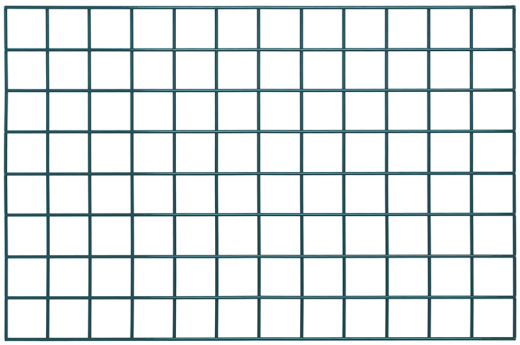

- Made of 12 gauge cold rolled steel
- Mounting holes located at 8” increments, first and last holes are located at 4” from the end of the tracks
- Wall tracks include stop fasteners for the end of the tracks and joiner plates for connecting adjacent tracks *(hardware to mount track to the wall not included).*

WALL TRACKS		
W" x L" x H"	SHIP WGT	MODEL NO.
¾ x 40 x 1½	5	SG-WT40P
¾ x 56 x 1½	6	SG-WT56P
¾ x 72 x 1½	7	SG-WT72P

GRID PANELS

- ¼” diameter cold rolled steel
- 3” x 3” openings
- Provides a surface for task management accessories
- Can mount directly to the uprights or mounting bracket kits

UPRIGHTS

- Made of 12 gauge cold rolled steel
- Slotted every 1½”
- Mounting holes are spaced every 6” along the upright.

Minimum of two uprights per system
