HIGH TEMPERATURE FRYER BRUSHES

Cleaning is a constant part of fryer operation. Using the right tools to clean the fryer is just as important as filtration. Our fryer brushes are designed to clean all areas of the fryer while it's still in operation. The bristles are heat resistant to 500°F so that the fryer can be cleaned during filtering without having to wait for it to cool down.

FRYER BOIL OUT

Boil Out removes the carbon build-up in fry pots and is economical and easy to use. Clean heating elements maintain constant temperature during frying which results in quality foods and reduces fryer down time. Each container has enough to do approximately 10 boil outs for a 50 lbs. capacity fryer. There are two 8 lbs. containers per case. Available in two formulations: original and non-corrosive.

Item #	Description	Pack Case	Case Weight	Case Cube
FB08	Original Fryer Boil Out	2/8 lbs.	16.00 lbs.	0.460
MSFB08	Metal Safe (Non-Corrosive) Fryer Boil Out	2/8 lbs.	16.00 lbs.	0.460
