

Oil Management System

Model: OM-80

Features & Benefits: Safe removal of fryer oil to disposal bin for recycling dollars.

Operational:

- 115 LB Capacity
- Low Center of Gravity: Makes the **OM-80** easier to push and roll with less effort.
- Easy cleaning – No tools needed.
- Ergonomic safe pump handle.
- Curved Handle: Ergonomically designed handle makes the **OM-80** easier to maneuver.
- Quick Disconnect Hose: Makes the **OM-80** easier to store when not in use.
- Small footprint for storage.

Shown with
Rinse/Discharge
Hose

Safety:

- Lower Hose Connection Position: Leads to less oil in the hose and less chance of hot oil falling onto the floor.
- Oil Grooves: Catches excess oil dripping onto the **OM-80** and funnels it back into the unit.
- Hinged Cover: There is no removal of the Oil Cover. The **OM-80** has a piano hinge so there is no need to remove the cover.

***Unit does not include: Rinse/Discharge Hose**
