Gas Charbroiler Countertop Model

Model #: MBR 24, 36, & 48

These gas charbroilers are available in 24-, 36-, and 48-inch widths, all with efficient 12-inch U-shaped burners with metal radiants that provide high broiler flames every 6 inches. It has highly responsive temperature controls every 12 inches that make it easy to achieve consistent heat distribution.

These units provide a wide range of cooking temperatures, so you can cook larger and leaner pieces of meat – such as brisket, pork shoulder, and ribs – at low heat or crank up the flames for Pittsburgh-style ribeye, sirloin, and prime rib.

These charbroilers have a 1-year parts and labor warranty. Units ship ready for use with natural gas, but can easily be converted to LP (propane) gas with the included conversion kit. All charbroilers carry ETL gas and sanitation approvals that meet US gas and sanitation requirements for use in restaurants.

Not suitable for installation in non-commercial or residential applications.
