MOTAK

Countertop Gas Range

Model #: MHP -12, -24, & -36

With 25,000-BTU high-heat burners, MoTak countertop gas ranges provide commercial cooking space without an oven or other base. The burners give you the maximum in gas range features, including burners with removable tops for easy cleaning and a pilot that lights each burner. Heavy-duty cast iron grates are also removable for easy cleaning.

A large control knob for each burner gives you a comfortable feel when turning burners on and off all day. Units are shipped for natural gas but are easily converted to LP (propane) gas with the LP conversion kit that is included.
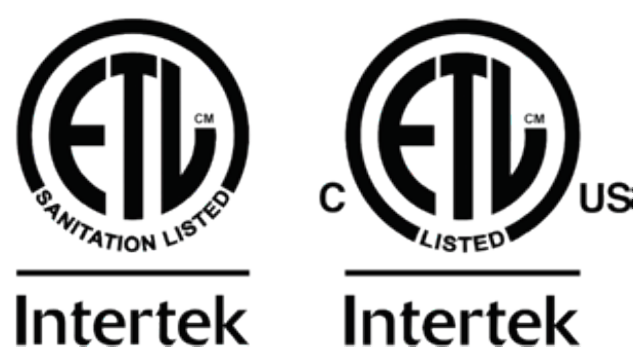

These countertop gas ranges carry ETL Gas and Sanitation approvals, which means they meet U.S. gas and sanitation requirements for use in restaurants.

Not suitable for installation in non-commercial or residential applications.
